POLICE CLASH WITH JOBLESS IN GLASGOW

Labor Member Arrested in Demonstration of 50,000 Unemployed

PARADES STAGED IN THREE OTHER CITIES

LONDON, Oct. 1 (CP-AP).—In Glasgow, Scotland; Salford, Lancashire; and Bristol and London, demonstrations were attempted by crowds of unemployed today and tonight. In all cases mounted police, armed with batons, proved sufficient to handle the disturbances, although the mob on Glasgow Green numbered fully 50,000. A number of the rioters and some policemen were slightly injured, and numerous arrests were effected.

The most important disturbance was that at Glasgow, which finally ended in the arrest of John McGovern, turbulent labor member of the House of Commons. Scotland's principal industrial city was the scene of various demonstrations during the day. Early thousands of men and women paraded, but despite constant singing and shouting, and traffic holdups, order was maintained. The corporation received a deputation of fifteen, and afterwards agreed, by a vote of fifty-seven to thirty-eight, to remit the grievances to the public assistance committee.

SEVERAL INJURED
Glasgow's main disturbances occurred tonight. A crowd of 50,000 jobless gathered on Glasgow Green was charged by mounted police. Several persons were injured. Demonstrators were led by John McGovern, who participated in a free-for-all fight in the Commons some weeks ago. He was arrested on a charge of forming a disorderly mob.

The Salford rioting centered at the City Hall, where the municipal government was debating a cut of nearly \$3,000,000 in the relief fund. A crowd numbering thousands and carrying red banners stormed the building. Armed with sticks and shouting "Remember 1914," they attempted to rush the entrance but were held back by police.

In Bristol, demonstrators marched with banners attacking the National Government and reading: "Not a penny off the dole," "Down with the National Government" and "We support our naval comrades."

Sell Tickets for Birthday Party
LONDON, Oct. 1 (AP).—Mahatma Gandhi, sixty-three years old tomorrow, had a birthday party tonight and received a purse of \$975. Tomorrow noon the Mahatma will be entertained at a birthday dinner, at which the only things served will be fruit and milk and for which tickets have been sold.

ONTARIO'S DRINK BILL
TORONTO, Oct. 1 (CP).—With another month of the fiscal year to come, the indications are that Ontario's spending on beer, wine and liquor for the present year will fall just under \$50,000,000, says The Toronto Star in an unofficial estimate today.

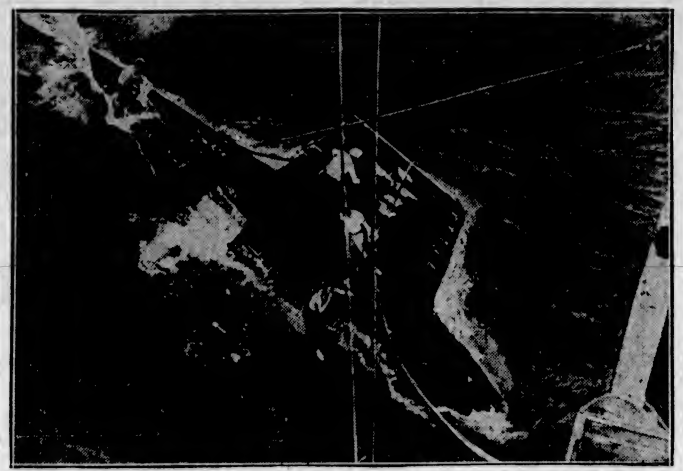

CITY MEMBER GIVES TRIBUTE TO WORK OF HON. R. B. BENNETT
D. B. Plunkett Makes Ringing Appeal for Canadians to Help Themselves to Prosperity by Giving Support to Canada's Premier

SOMETHING of the gigantic problems facing Canada—problems which Rt. Hon. R. B. Bennett and his able colleagues are courageously facing and solving—was told by D. B. Plunkett, M.P., in addressing the large audience that crowded the Chamber of Commerce auditorium at the annual meeting of the Victoria Conservative Association last night.

DOMESTIC LOAN IS ANTICIPATED
Bond Issue Within Canada Would Cover Cost of Relief and Other Expenses

MONTREAL, Oct. 1.—A dispatch from Ottawa to The Montreal Star today says:
A domestic loan in Canada looms up as probable within a few months. Conditions for borrowing in the United States, if such were the purpose, are not propitious, and, in any event, plenty of funds will be available in Canada without encountering the adversities of exchange.

Thrilling Rescue of Flyers at Sea

RESCUES of flyers at sea by the slower and safer water craft have become so common that they are no longer regarded as a novelty. The picture above shows one such rescue when the survivors of the Spanish "Dornier-Wal" military plane were hoisted aboard the liner Saturnia after they had crashed in the Mediterranean Sea. The photo was made from the rescuing craft and shows the men on the wing of their wrecked plane. The flyers were all high officials of the Spanish Army.

GIVES VIEWS OF MOSLEMS

Unrest Threatens If Rights Not Protected in Federation Scheme

LONDON, Oct. 1 (AP).—A threat of Moslem unrest if the rights of the Moslems in India are not protected when India is accorded federation status was voiced by leading Indian Moslems to the members of the House of Commons and the House of Lords tonight.

Maulana Shaikat Ali, who served nine years in prison for anti-British activities, predicted trouble if the Moslem demands are not met.

"But," he said, "if you want friends, here is the hand of an honest man."

Up to that point the committee room in the House of Commons had been quiet as a church, but at his offer of peace the members cried "hear, hear," and there was a great clapping of hands and stamping of feet.

Sir Mohammed Shafi, speaking for the Aga Khan, Moslem leader, expressed the belief that the future of India lies within the British Commonwealth of Nations.

Meanwhile, the Hindu-Moslem communal dispute is holding up the progress of the round table delegates, whose minorities committee adjourned today for another week to allow Mahatma Gandhi and the Aga Khan an opportunity to reach an agreement regarding the status of the Moslems under the projected federation.

CONDITION IS UNCHANGED
WEST ORANGE, N.J., Oct. 1 (AP).—A bulletin issued today by Dr. Hubert S. Howe, personal physician to Thomas A. Edison, said the inventor had a restless night, but his condition remained unchanged. He kept very quiet and seemed no especial interest in his surroundings.

Seventeen cars, some of them loaded with coal, left the track about 7:30 o'clock tonight, ripping up rails and ties for nearly half a mile.

RIGHT-OF-WAY BLOCKED
The box cars were badly smashed and the right-of-way is piled high with the coal and other goods in the shipment.

A wrecking crew from Biggar was rushed to the scene and is held up behind the wreckage. Cause of the derailment is unknown. Ties were split in the middle and lifted up the rails.

Royal Canadian Mounted Police from Saskatoon have been summoned to investigate and aid in the hunt for injured in the wreckage.

PREMIER ESCAPES ASSASSINATION

Suspect Arrested by Police Says He Was Commissioned to Murder Ismet Pasha

ISTANBUL, Oct. 1 (AP).—Police revealed that Premier Ismet Pasha escaped an attempted assassination on his departure today for Greece. Suspect of two men who arrived from Greece by steamer, the police arrested one of them who gave the name Agopi, but the other locked himself in a washroom. When the door was broken down it was found the fugitive was half choked. The man died several hours later.

Agopi told police that he and his comrade, whose name was Verant, had been commissioned by the Armenian society, Tashnak, to murder the Premier.

Canada Meeting Her Obligations

TORONTO, Oct. 1 (CP).—Premier R. B. Bennett, who last night declared that Canada would honor her obligations in accordance with the terms of the borrowing contracts, explained today that the amount of \$13,000,000 in bonds falling due today is the unconverted portion of the domestic loan due on October 1, 1931. The amount, of course, is being paid at maturity. Holders of these bonds are located in various countries.

THIRTEEN GO TO TRIAL ON RIOT CHARGE
Estevan Strike Leaders Evade Police—Followers Committed

PRECAUTIONS TAKEN TO AVOID TROUBLE
ESTEVAN, Oct. 1 (CP).—Thirteen men were committed for trial on rioting charges at the next Assizes when they appeared in court today in connection with Tuesday's riot in which two men were killed and a number injured. Harry Michelson, who also appeared, was discharged for lack of evidence by Magistrate D. A. Wynne-Jones.

Those committed were: Martin Day, John Criswick, Andy Lewis, Peter Smar, Metro Uhren, R. W. Dixon, John Kolenus, Joe Lepiak, L. Drownen, Isadore Minister, Joe Bernotte, Alex Petryk and Mike Puharski.

An intensive search by police for strike leaders, for whom warrants have been issued, has so far failed to disclose their whereabouts. In the meantime every precaution is being taken by police forces to prevent further trouble. Guards are on duty at the mines and at strategic points in and around Estevan and other mining centres.

Claims of strikers that they were attacked by police while parading peacefully have been combated by officials who state that police were in actual danger of their lives before resorting to the use of firearms. Condition of two critically injured miners was reported somewhat improved late today.

OPERATORS STATE CASE
Mine owners today issued a statement setting forth their views on the present strike situation. They claim that they have no conception as to what the demands of the strikers are; that each of the operators has agreed to meet his own employees who are on strike for the purpose of discussing the grievances of the men. The operators also say they are willing to meet a commission of the striking miners and will reinstate all of their former workers, without discrimination, pending an investigation.

THOMAS LIPTON FIGHTS DEATH
Aged Yachtsman Given "Sporting Chance" to Recover by Physicians

LONDON, Oct. 1 (AP).—Sir Thomas Lipton had what his friends called "a sporting chance" tonight to survive a chill and severe cold from which, it was revealed, he has been suffering for several days.

"There is an encouraging improvement," one of his doctors said regarding the condition of the yachtsman who has tried so often to win the America's Cup and always lost.

Sir Thomas was confined to his bed until this evening, when he dozed off. Members of his household appeared relieved tonight at the development.

The physicians believe the crisis past and unless he suffers complications we shall continue very hopeful," a secretary said.

Only last May the Royal Yacht Squadron, probably the most exclusive club in the world, honored his long service to the sport in electing him to membership. It was only a few days after his eighty-first birthday that he was admitted to the club.

King Edward VII created him a baronet in 1902 after he had been knighted in 1899 by Queen Victoria.

DOCTOR KILLED BY UNGRATEFUL PATIENT

GLENDALE, Cal., Oct. 1 (AP).—Dr. P. Martin Keller, medical director of the Glendale Sanitarium, was shot and killed today by an inmate, a doctor of medicine, who had been befriended and attempted to restore to health.

Cornered later by police at his home, the doctor, Joseph Conner, forty-eight, shot himself above the heart and was taken in a dying condition to the prison ward of the general hospital. Conner said he shot Dr. Keller and planned to kill a nurse also because he was not satisfied with their treatment of him.

The Federation will go on record, also, Green announced, against wage cuts and for allocation of idle workers to public and private jobs as "temporary relief in an acute situation."

A DECIDED CHANGE
Expressing opinion there had been a decided change in public opinion on the prohibition law, Green said the Federation is "planning to call upon its friends in Congress to support legislation to bring about modification."

The Federation is firmly convinced modification of the Volstead Act will serve to promote true temperance, the LEADER head added. Modification is necessary to help economic conditions throughout the nation by stimulating production enterprises in many lines—reconstruction of breweries, greater demand for farm products, and by stimulating transportation.

Grain Exhibition Delayed for Year Announces Minister

REGINA, Oct. 1.—The World's Grain Exhibition and Conference which was to have been held in Regina in 1932 has been postponed until 1933.

Announcement to this effect was made tonight by Hon. Robert Weir, Federal Minister of Agriculture and chairman of the national committee of the grain show, after he had received resolutions from the council of the Regina Board of Trade and the board of directors of the Regina Agricultural and Industrial Exhibition Association, urging postponement for one year, rather than its cancellation.

R. A. WOOTTON RE-ELECTED

Chosen President of Victoria Conservative Association at Annual Meeting

Robert A. Wootton was re-elected president of the Victoria Conservative Association at the annual meeting of the organization held last night at the Chamber of Commerce Auditorium, and attended by upwards of 500 members. His sole opponent was E. W. Maynard.

Mrs. M. J. Roberts, an active member of the association for more than twenty years, was elected to the office of first vice-president over Alderman J. L. Mara. Mrs. Roberts was placed in nomination from the floor of the meeting. The four members of the executive elected were R. H. Powell, Mrs. W. C. Moreby, W. C. Winkle and Mrs. F. Kilby. W. Skillings was the only other nominee, J. I. Mutter withdrawing before the ballot was taken.

Officers elected by acclamation were: P. M. Linklater, second vice-president; John L. Clay, treasurer; and R. H. Hiscoks, secretary. Hugh Macdonald was elected chair during nominations and balloting.

General business of the association was transacted prior to the election of officers. President R. A. Wootton read his annual report of the activities of the association during the past year. The report was adopted by the meeting without comment and the report of the treasurer and secretary.

Following nominations, candidates were given an opportunity of addressing the meeting. E. W. Maynard, candidate for the presidency, was the first speaker. He criticized the retiring president principally for not holding the annual picnic of the association as had been customary in other years. Mr. Wootton, however, made a direct appeal to the membership. Others who made brief addresses were Alderman J. L. Mara and Mrs. M. J. Roberts, candidates for first vice-president; R. H. Powell and W. C. Winkle. At the voting A. I. Kirkpatrick acted as agent for Mr. Maynard, W. H. M. Haldane for Mr. Wootton, and Major Roberts for Mrs. M. J. Roberts. F. A. Willis was returning officer.

The meeting was one of the largest of the association in several years, the auditorium being filled to capacity, and all speakers were given an attentive hearing without interruptions.

At the opening of the meeting the members paid tribute to the late Leonard Tall, a former president of the association, with all members standing in silence.

BEER WILL BE ON THE AGENDA

Federation of Labor Delegates to Discuss Prohibition at Vancouver

SEATTLE, Oct. 1 (AP).—Definite steps to obtain modification by Congress of the prohibition law will be taken, President W. H. Green, of the American Federation of Labor, said here today, at the fifty-first annual national convention of the Federation in Vancouver, B.C., next week.

Green, on his way to Vancouver, said the Federation will "emphatically reassert" its stand for modification of the Volstead Act to permit the sale of beer containing 2.75 per cent alcohol.

The Federation will go on record, also, Green announced, against wage cuts and for allocation of idle workers to public and private jobs as "temporary relief in an acute situation."

A DECIDED CHANGE
Expressing opinion there had been a decided change in public opinion on the prohibition law, Green said the Federation is "planning to call upon its friends in Congress to support legislation to bring about modification."

The Federation is firmly convinced modification of the Volstead Act will serve to promote true temperance, the LEADER head added. Modification is necessary to help economic conditions throughout the nation by stimulating production enterprises in many lines—reconstruction of breweries, greater demand for farm products, and by stimulating transportation.

PRISON TERMS FOR FOOD PROFITEERING IN GREAT BRITAIN

Government Takes Action to Protect Purchasers—Liberals in Cabinet to Remain With Premier—Election Talk Revives and Dissolution Is Expected in Immediate Future

LONDON, Oct. 1 (AP).—The British Government, a virtual dictatorship by virtue of its new economy powers, put forward a bill to block profiteering today. The bill, aimed at persons who make suspension of the gold standard the occasion for profiteering in food, provides penalties ranging up to three months' imprisonment and a fine of \$500.

Meanwhile it was reported unofficially tonight that the chief Liberal members of the National Government had decided to stand by Prime Minister Ramsay MacDonald, election or no election.

Assuming the accuracy of this report, observers considered the prospect of an election before the month is over as having been greatly heightened.

OPPOSE LEADER
The Liberal ministers' decision was understood to have been made against the wishes of their nominal leader, David Lloyd George, whose political future has become more than ever a subject of speculation.

King George saw some of the political chiefs today. Lord Reading, Liberal; Stanley Baldwin, Conservative leader and President of the Privy Council, and Sir Austen Chamberlain, Conservative and Irish Lord of the Admiralty, visited Buckingham Palace at different times.

In some quarters it was expected Mr. MacDonald would make an announcement regarding election before leaving tomorrow for a visit to his constituency at Seaham Harbor, where he will meet local Labor leaders who recently demanded his resignation as their member in the House of Commons.

CONVERSION LOAN
Rt. Hon. Philip Snowden, Chancellor of the Exchequer, was given authority to convert the 5 per cent war loan, amounting to \$200,000,000, by the House of Commons tonight, when the enabling clause in the finance bill was approved.

Mr. Snowden said the conversion would not violate any conditions under which the loan originally was subscribed. Holders will be given three months in which to exercise an option of retaining their stock under the changed conditions or being repaid in cash.

Those who take no action during that period will be regarded as having accepted the offer to retain under the new conditions, which were not specified.

Would Not Insult The Union Jack

CALGARY, Oct. 1 (CP).—Mayor Andy Davison today refused to consider a resolution, presented by Calgary Loyal Orange Lodge No. 1585, asking that Communists be forced to carry the Union Jack or the Canadian Ensign while parading. "I would not insult the Union Jack by asking the Communists to carry it at the agents of the police or demonstration," the mayor told the delegation presenting the resolution. He would not be a party to this end, he said, for he believed it would be "a direct insult to the flag."

Premier Vigorously Replies to Critics Of Administration

Hon. S. F. Tolmie Flays Opposition Leader in Defending Government—Challenges Mr. Pattullo to Provide Solution of Provincial Ills

IN clear-cut, definite language which permitted of no misinterpretation, Premier Tolmie last night, at the annual meeting of the Victoria Conservative Association, gave answer to T. D. Pattullo, Liberal leader, and other critics of the administration.

There was no mincing of words in the way in which the Premier challenged the Opposition leader's record as a minister of the former administration, as a departmental executive, and as a contributor of constructive thought for the development of provincial progress and stability at this time.

In contrast to the twelve years of Liberal waste and inefficiency of administration, the Premier gave instances of the advancement made in 1928—an advancement in the face of the most difficult conditions and world trade stagnation ever recorded. In this respect he pictured the character of the Liberal Government's handling of the Pacific Great Eastern Railway with the business-like manner in which the present Government, with the assistance of the Ottawa administration of Rt. Hon. R. B. Bennett, was approaching the problem.

LAND SCHEMES COSTLY
Mr. Pattullo, the Premier remarked, was very critical of taxation. The cost to the taxpayers of British Columbia for the "land riddling" personally supervised by Mr. Pattullo himself as Minister of Lands, and as a member of the Liberal Government, amounted to \$12,265,561, bearing annual fixed charges of no less than \$886,528. This meant that the taxpayers of British Columbia must raise each and every year from 1926 to 1931 an hour from 18c an hour to 18c an hour from 18c an hour.

Spoken for the maritime interest said they were standing by their proposal to reduce the basis wage scale from 80c to 65c an hour and reduction of cotton loading to 65c an hour from 18c an hour.

REFORESTATION STUDIED HERE

Frederick Agri. Swedish Visitor, Inspects Experimental Areas at Cowichan

After spending about a year and a half in the United States studying problems connected with the forest situation there, Frederick Agri. of Stockholm, Sweden, is paying a short visit to Victoria before leaving for his home in Europe. The visitor was enabled to spend this time in America by means of a foundation fund which has been set aside for the purpose. This is carried out without any connection with the governments of the two countries, the advantages to be derived being open to competition.

During his stay in Victoria he called at the forestry department of the Government, and made a trip to Cowichan Lake, where he saw the experimental areas located there. Mr. Agri. says that in his country the system of replanting forests is being carried out by a plan of re-seeding rather than by transplanting young trees. This method has been found more economical than the replanting method.

NEW SYSTEM OF ELECTRIC RATES

Majority of Householders Are Electing to Have One Meter for Services

The B.C. Electric Company yesterday entered upon the new system of collecting rates for electricity throughout the city and environs. This is based now upon the floor area of the house. The system applies to the domestic rate covering lighting and various other services used in the home.

In cases where there is now a double meter system installed, the company is leaving the two systems if it is desired. At the same time, for the convenience of both sides, the adoption of the single meter is recommended, the change being made at the expense of the company. In nearly every instance the householder is accepting the single meter system.

The cost of electricity in no small measure depends upon the total amount which is consumed in any centre. It is, therefore, to the advantage of the company and of the public to have an increasing number of users of electricity, both for lighting and for the services of the homes.

This increase is being steadily marked in the city, according to information given by the electric company. The demand for electric kitchen stoves and various other kitchen appliances to the home in which electricity is used, is steadily on the increase. New homes that are constructed are almost invariably built for the use of electricity, and the number of services per month added to the system is quite marked.

Canada Bonds Gain Strength At New York

NEW YORK, Oct. 1 (CP).—Canadian issues showed a sharp upturn in the New York bond market today. While Canadian maturities were being met today, the New York market sent issues of the Canadian Government and Canadian railroads up from fractions to a top rise of 6 points.

The greatest advance was scored by Canadian National 4-3-4s of 1935, which closed at 63-1/4. The same road's 4-1-2s of 1937 advanced 5 points. Canadian Pacific 5s of 1944 were up fractionally, but the 4-1-2s of 1940 were off a point.

Canada 5s of 1932 were up 13-1/4 points, and the 4-1-2s of 1936 were up a full point.

Civic Taxpayers Invade City Hall To Avoid Penalty

Cheques and currency literally rolled over the counters at the city treasurer's office yesterday as late comers swarmed into the offices at the City Hall to pay their taxes before the application of the first penalty of 2 per cent today.

So busy was the staff that no figures of this year's payments were available, and it may be Saturday before all tax forms are finally checked, and receipts tabulated.

City Treasurer Edwin C. Smith was confident at the close of business yesterday that the total collections would exceed the 1930 figure.

ASK PREVENTION OF FIRE MENACE

Officials Arrange Period of Observation—Fire Marshal for Prevention Gives His Views

"Two of the fundamentals of fire prevention are 'good housekeeping' and 'applied common sense,'" stated J. A. Thomas, fire marshal for British Columbia, in an interview yesterday, in connection with the annual fire prevention week, to be observed this year October 5 to October 9, inclusive.

"If you take a piece of loose paper and apply a lighted match. The match represents a discarded cigarette butt, a spark from a stove or chimney, or a piece of rubbish around your premises. Now take a similar piece of paper and an empty cigar box. Enclose the paper or other inflammable substance in the box and shut the lid. The drop of lighted match on the box cover and it will burn harmlessly. The paper or inflammable material on the inside will not burn."

ON TRIAL FOR SHOOTING WIFE

Hearing Starts in Vancouver Assize Court of Attempted Murder Charge

VANCOUVER, Oct. 1 (CP).—Trial of Albert E. Drew, local street car conductor, on a charge of attempted murder, opened today in Assize Court before Mr. Justice Gregory and a jury. It is alleged by the Crown that accused shot his wife Edith, on the night of March 29 in the garage at the rear of the Drew home. Mrs. Drew received a wound through the bridge of her nose and left eye. The accused is conducting his own defence.

Mrs. Drew on the witness-stand, cross-examined by her husband, said she had no quarrel with him and that they were on "good terms."

EXPLOSION FOLLOWED BY DESTRUCTIVE FIRE

SEATTLE, Oct. 1 (AP).—With an explosion heard half a mile, the North Park Lumber Company, north of the Seattle city limits, broke into flames and was destroyed with an estimated loss of \$5,000, early today. Families in six nearby houses fled as the fire spread toward their homes, but the city and county firemen confined the flames to the lumber yard. The lumber company had been shut down. Lieutenant L. E. Mackay, of the fire department, said gas forming in nearly empty gasoline tank probably caused the explosion.

DECREE CUTS WAGES OF 180,000 WORKERS IN GERMANY'S MINES

BERLIN, Oct. 1 (AP).—An emergency law signed by President Hindenburg yesterday legalised a 7 per cent wage cut affecting 180,000 coal miners in the Ruhr district. The measure reduces workers and employers from the payment of unemployment insurance fees, thus making the reduction only 3 per cent in its effect. Minor walkouts were reported at Essen, Duisburg and Bottrop.

WEIGHTY DOCUMENTS ARE LEAVING OTTAWA

EDMONTON, Oct. 1 (CP).—Natural resources records comprising many tons' weight of ancient and modern documents for the Governments of the three Prairie Provinces are being shipped from Ottawa to Edmonton, according to word received today.

The shipment will include not only Alberta's records but those also of Saskatchewan and Manitoba, which will be sorted out on arrival here and forwarded to Regina and Winnipeg.

LIGHTS GO OUT AND SO DO ELECTRICIANS

CANON CITY, Colo., Oct. 1 (AP).—The lights went out at the Colorado State penitentiary last night. "Call out the guard! Call out the electrician! The lights are out!" shouted the captain of the guard.

"The guard is here, but the electricians are out. They went out with the lights and they took the fuses with them," reported a subaltern.

The electricians, Ted Cole and Ray Littleton, convicts, were still out today. They pulled the fuses from the prison wire system and went over the wall in the darkness.

OFFICERS ATTEND SCOTTISH SMOKER

Members of 16th Regiment Commemorate Social Activities With Gathering at Armouries

Officers and men of the 16th Canadian Scottish gathered last night in their mess room for the first of the season's general use of variety entertainment was given.

During the evening Hon. S. L. Howe, Provincial Secretary and Lieutenant-Colonel of the regiment, and Lieutenant-Colonel Brooke Stephenson addressed the gathering. Major J. R. Kingham also occupied a place at the head table with his fellow officers.

Colonel Howe expressed his delight at having the opportunity to be present with the members of the regiment at such an enjoyable affair. He was greeted with the singing of "He's a Jolly Good Fellow" on concluding his brief speech. Lieutenant-Colonel Stephenson also declared it a great pleasure to attend, and stated that it was the intention to hold many social functions this year.

JUBILEE AUXILIARY MAKES LIBERAL GIFT

The Women's Auxiliary of the Provincial Jubilee Hospital voted amounts totaling several hundreds of dollars for supplies needed by the institution at the regular meeting held yesterday at the nurses' home. Purchases authorized from the W.A. funds included sheets and quilts to the value of \$800 for the general use of the hospital; \$400 to defray the cost of redecorating the entrance and corridor of the children's ward; the purchase of two new receiving bassinets; also gowns, towels and quilts for the maternity floor, and a microscope for the nurses' laboratory.

SPAIN TO ABOLISH THE DEATH PENALTY

MADRID, Oct. 1 (AP).—The Spanish Assembly voted yesterday to abolish the death penalty for civil offences.

Radicals, Socialists and Federalists joined in an attempt to suppress capital punishment in military law also, but Congress confined its action to civil law.

A FISCAL OPPORTUNITY

The fall in the value of the Canadian dollar on the New York Exchange offers a psychological opportunity for giving a new impetus to the buy at home movement. Nothing has happened in recent years which should give greater encouragement to a campaign for developing local industries and increasing export trade. Obviously Britain's purpose in abandoning the gold standard, for the time being, is to increase trade development both at home and with her outside markets. That movement on the part of Britain has led to the depreciation of the Canadian dollar in the United States. Britain realized that axiomatic truth that gold as a medium of exchange is useless unless it is in circulation. It serves no useful purpose when locked up in the vaults of the United States and France.

Here in British Columbia Ministers of our Provincial Government have been urging the people to buy at home instead of sending their money to outside sources for the necessities and luxuries of life. That Government has promised to start a sustained campaign to achieve this purpose. It could not seize upon a more favorable moment than the present when the purchasing power of the Canadian dollar has declined where American markets are concerned. At home, the Canadian dollar maintains its parity of value; in other words, it is still possible to purchase home products at the same price as in the past. But these products brought in so largely from the American side we are paying an enhanced price because our dollar is at a discount in the United States.

Any Government keenly alive to its sense of responsibility in promoting the welfare of the people governed will joyfully embrace the present opportunity of doing the most substantial thing that can be done towards finding a permanent solution of the unemployment problem. It is possible, by inducing home-buying of home-manufactured articles to bring about industrial expansion at home. It would be well worth the while of the Provincial Government to set aside a sum as large as \$100,000 out of unemployment relief funds to promote a campaign for the home-buying movement. The money would be well spent and would bring cumulative results. That is one kind of statesmanship that is required at the present time.

BRITAIN'S ECONOMY BILL

What has been termed the national crisis in Britain, that which determined the country to form a Coalition Government and to depart temporarily from the gold standard, was due to the lack of faith inspired by the late Socialist administration which was kept in office by a majority section of the Liberal representation in the House of Commons. It was Socialist policies which led to a financial impasse calling for a rebalancing of the budget to obviate a deficit of \$600,000,000. Now it is the very party responsible for the conditions which brought about its own downfall that is clamoring to know when there will be a general election.

One of the supreme tests of Parliamentary Government in any British community is its capacity to act with rapidity in a crisis. That is where Socialism failed lamentably. The Cabinet of the late Labor Government was at cross purposes when it was faced with the inevitability of having to effect economies. The recent debate in the British Parliament on the Coalition Government's Economy Bill revealed the fact that a number of the ex-Ministers of the Labor Government were prepared to accept economies which totaled \$280,000,000. Those ex-Ministers are critics of the present administration because the Coalition Government has effected those very economies and others. The late Government sat day after day discussing what should be done in the crisis before it took the nation into its confidence. The moment the nation knew and learned of the attitude assumed by those who are now out of office there was no course open to the Labor Party save to resign the authority which it was invested.

The Coalition Government has given signal proof of its ability to govern, for it has met the Parliamentary test of speedy action in an emergency, and action of a character which has restored public confidence. The present administration has two duties to perform. It had to balance the budget, and this it has done. It had to make the financial position of the nation sound. Put bluntly, the duty has been to stop the sink holes into which money had been poured by the spendthrift zeal of the late administration and put new resources into the Treasury to restore the confidence, not only of the British nation and Empire, but of the world as well.

Dispatches to this part of the world affecting the measures being adopted by the Coalition Government have left a good deal unsaid about the financial courage being displayed. Under the emergency Economy Bill certain provisions are to be made effective by Orders-in-Council. Those Orders-in-Council must be issued within a month of the passage of the Bill. In brief, to meet the emergency there is a sum of \$350,000,000 being found by economies; \$400,000,000 by taxation and \$100,000,000 is to be found by a rearrangement of the Sinking Fund. As well, the Government has in view a conversion scheme to be launched at an early opportunity.

Mr. Ramsay MacDonald, the Prime Minister, has announced that Parliament will adjourn on Wednesday next. There are substantial reasons why, for the moment, there is no necessity for taking Parliament into his confidence as to the date of a general election. The Cabinet has not reached a final decision on that point. Another reason is that a brief time must elapse before beneficial results begin to flow from the country's temporary abandonment of the gold standard. Then, it must be remembered, that the character of the Economy Bill, relating to those provisions which can only be put into force by

Order-in-Council, is such that it may be doubted if it would be wise to enforce those provisions during a time when the country is in the turmoil of an election. That is a compelling reason against any precipitate announcement.

The efficacy of the measures taken to meet the emergency must be given a brief trial. That the trial will have speedy results is undoubted, and for that reason an election cannot be delayed for long. The people of Britain have made up their minds on the character of the next Government they want. A realization of this is not so evident in other countries, and it is well that, with the least possible delay, the situation should be cleared up in this respect. Nothing will clarify the situation more than a sweeping mandate given by the people of Britain, and those people are ready to give that mandate whenever the Coalition Government says the word.

THE Y.M.C.A.'S APPEAL

The Y.M.C.A., in its efforts to raise a fund to relieve the financial fortunes of that institution, which has suffered in common with many other praiseworthy efforts of a similar character, is holding a tag day tomorrow. It has introduced an element of novelty into its appeal to the people, inasmuch as all those who contribute will each be presented with an apple. It is Apple Day, and in the effort to make it a success a good deal of time and thought has been devoted to the movement. The institution has secured the services of some 250 men and boys who will do the "tagging." The city and surroundings are to be combed scientifically in the appeal, and a spirit of enthusiasm has been brought into the effort that is wholly praiseworthy considering the object in view—which is to enable the Y.M.C.A. to function for the benefit of the community as in the past.

We bespeak public interest for the Y.M.C.A. fund. That institution holds a place of high regard in the hearts of our citizens. Its activities are both social and physical, and there is no question that, in both respects, it has had the most beneficial results. It should not have to slacken its efforts in producing those results through any lack of public interest in making up the deficiency in its funds. The Y.M.C.A. is a civic asset here, just as in so many other places. It is a recognized part of our community life, and as such is well deserving of the support of our citizenship.

A SATISFACTORY SERVICE

The abandonment of the Royal Air Line Service to and from Victoria to Vancouver and Seattle recalls that during the Summer schedule provided, the safety of the passengers and the machines was a first consideration by the company and its pilots. Their departure from here will be regretted. Many hundreds of passengers were carried during the Summer months and all enjoyed the experience thoroughly, and particularly were loud in their praise of the courtesy shown by the air line officials and the comfort provided for them. It is only to be expected that the same volume of traffic cannot be anticipated during the Autumn and Winter months, and that the same schedule of performance by the pilots would be impossible owing to weather conditions. It is to be hoped, however, that next Spring the Royal Air Lines Service will resume its flights between here and Vancouver and Seattle. It is a service for which, in good weather, there is a demand.

All the blame for fantastic pronouncements of words by radio announcers does not lie at the door of American broadcasters. One of our own gentlemen of that ilk—in Vancouver—was responsible the other day for pronouncing "violincello" as "veealangkella."

THE QUEST

A dream hath set me on a quest:
A vision will not let me rest.
A fleeting spirit I pursue
All the fair four seasons through.
Lovelier than when day puts on
The fiery mantle of the dawn,
Or the many splendored vest
Sunset weaves across the West,
Of flowers just fed with starry dew,
Sweeter than all sound that flows
To a soft and soothing close;
Than the honey of the breath
Of a rose that knows no death;
Subtler, more melodious far,
Than the song of star to star.
Thou canst, soul of love, alone
Make the spiritual known.

—J. C. M. Duncan.

I would rather walk with God in the dark than go alone in the light.—Mary Gardner Brainerd.

CURRENCY PROBLEMS

Sir,—In the account of my address before the Round Table on September 29, several errors crept into the report. I am sorry to count the value of this news item. Twice the report quotes the parity of exchange for sterling at 4.84 and a fraction instead of 4.865; twice the date when Great Britain returned to the gold standard, a sum of \$1,000,000,000 is given as the amount credited to the United States, whereas this sum is held by the United States and France.

In another part it is stated that I viewed the return to the gold standard in 1925 as a grave error. Frankly, I do not believe that any opinion on the subject of the return to the gold standard would do much to enlighten the public mind. However, I was simply quoting from the McMillan Commission report, which was just as true as the facts which have just arisen after two years of the chaotic period of the gold standard. The opinions of the McMillan Commission are not the opinions of the present day. The opinions of the present day are the opinions of the present day. The opinions of the present day are the opinions of the present day.

Finally, I do not understand the last statement in the press report which suggests that England may go on the gold standard. Great Britain suspended her gold standard on September 20 last. This has nothing to do with the gold standard. The gold standard is the gold standard. The gold standard is the gold standard.

Sir,—One of the traffic problems that I think calls for the attention of the public is the habit of parking too near the corner of intersections. Outside car dealers, the City Hall, and the Hotel Vancouver are some of the places that spring first to my mind.

One is riding a cycle or motor bicycle and keeping near to the curb as the parked cars will permit, it is almost impossible to see what is coming out of an intersecting street until it is too late.

This means that if one is to ride in safety, you must come almost to a standstill. Parking should not be allowed beyond the point which will give an unobstructed view past the angle of the intersection. When a car is parked even twenty feet back at some corners, it is not enough for safety, especially when some nitwit is running by out of the intersection at a gallop. It will not allow him to come to an instant stop.

In parking a car out from an angle parking, far too many people seem to wait until they are nearly up to them before they start to move. The result is, speaking from the viewpoint of the rider of a two-wheeled machine—that you are forced out into the street car lines, and a slight angle that there is often a danger of getting hurt.

Motorists should also remember that turning signals cannot usually be seen by following cyclists. They are on the inside, and a car should not make a sudden change in direction without being absolutely certain that it is not interfering with the traffic. It is better to slow down a bit to indicate some change is going to happen.

When parked parallel with the curb, motorists, before backing, should remember that a hurried glance through the back window will reveal a cyclist coming probably a two-wheeled machine, parked at the curb right behind them that they cannot see. Three or four times a year I have had my machine damaged through this type of carelessness, and only one time did the person leave a note on the machine, and that was a visitor from California!

Cars proceeding slowly should be given enough to pass them so that a cyclist can pass them without being forced on to the car lines. Remember, he hasn't the stability of two wheels that you have on four.

Motorists should come to an intersection at reduced speed, especially when it crosses a far busier street. You may have excellent brakes and plan to pull up in the last thirty feet, but the other chap doesn't know, and may think it is a half-baked kid trying to be a hero, and that he is a visitor from California!

If the rule is that we must stop to give arterial traffic right of way, by all means let it be made clear that this doesn't necessarily mean a prolonged stop, but enough that you can plan your move so that you do not impede arterial traffic. I agree with Mr. Mansfield in his letter to The Colonist that a pedestrian is much safer crossing the street in the middle of the block. There you have to watch the traffic from each direction, whereas at an intersection you have to look out for traffic from four directions. This is no joke, with the way some smart drivers whirl round the corners.

Let us continue to cross streets at any point. There is not so much

Traffic that a ban should be put on "jay walking."

Accidents from this cause are not in evidence in Victoria. Neither do I think that traffic at present necessitates traffic lights. It is an expense that can be cut out. So little do we need them that half the time we shall be stopped by the red light when there isn't a car in sight on the through street for a block. Cut out using the street as a garage during the day by office workers, etc., and more than half our traffic problem will be solved.

H. CHRISTIE,

The Rhyming Optimist

By Aline McMichael

IN A CHILD'S EYES
It is a bit of heaven sometimes
That I surprise myself in
A hint of far and lovelier climes,
In a child's eyes.
There is a gladness pure and sweet,
Not quite of earth,
A joy no shadows can defeat,
In a child's mirth.

Something there is that others miss,
Some radiant gleams
Too rare for worldly wisdom's bliss,
In a child's dreams.
Better than all the treasured things
The years impart,
The echoes beat of angel wings
In a child's heart.

It leads the quickened thought always
To a high goal,
This memory of God that strays
Through a child's soul.

What Today Means

"LIBRA"
If October 2 is your birthday, the best hours for you on this date are from 7:45 a.m. to 8:30 a.m., from noon to 3 p.m., and from 7 p.m. to 9 p.m. The danger hours are from 8:45 a.m. to 11:50 a.m., and from 9:30 p.m. to 11:15 p.m.

October 2, astrologically speaking, holds out bright prospects, especially for those engaged in electrical and engineering work. Home relationships will also be favored. The spirits of energy and sympathy will prevail. Tangible results may not immediately materialize, but some seeds will drop, and these will yield a plentiful harvest later on.

Children born on this October 2 may, and probably will, be disappointed in early years. Just prior to adolescence, however, they will astonish all concerned—including themselves—by a new outlook on life. They will then begin to work hard, study unrelentingly, and become affectionate, tolerant and sympathetic.

You, if born on October 2, are capable of ascending to sublime heights or descending to abysmal depths. There are always two distinct individuals striving within

SPEEDY DRIVING IS DEPRECATED

Police Chief Talks on Careless Motorists, and Fire Alarms and Cyclists

Matters pertaining to the speed at which an automobile may be driven and the regulations governing driving past schools were dealt with in the fourth of a series of talks on traffic regulations by Chief of Police Thomas Heatley last night. The chief is giving these talks as part of an educational campaign for safety in the city.

"Before proceeding with my little talk as promised on motor traffic regulations, I would like to impress upon the mind of those who ride bicycles that their bicycle bell must be sounded before overtaking any pedestrians who may be passing over any street or when passing over intersections or while approaching other vehicles," the chief said.

"DANGEROUS HABIT"
The habit of riding in a zig-zag manner and traveling on the left-hand side of the street must be discontinued at once. You must come to an absolute stop where stop signs are placed and must not proceed until you are assured of perfect safety ahead of you. That very dangerous habit of hanging on to street cars or any other vehicle is strictly prohibited. You must ride your bicycle with the greatest of care and must not ride on the sidewalks or upon any path that is not a part of the street.

"When leaving your bicycle, place it properly against the curb in an upright position so that it can be clearly seen by any motorist who may desire to park. I would advise you all to obtain a bicycle lock and when leaving your bicycle for any length of time, this will prevent much of the bicycle stealing that at present goes on in the city."

"When driving in the same direction as a street car, you must stop a few feet from the rear of the passenger exit when the car has stopped for the purpose of taking on or discharging passengers, and must not proceed until the street car doors are closed and the passengers are safely on the sidewalk, except in the case where safety zones are placed, and even then you must proceed in a most careful manner."

"TRAFFIC MUST STOP
When the police patrol or fire department's motor apparatus respond to a call, motor vehicles must immediately drive as near as possible to the right-hand curb, and then remain stationary until they have passed. When approaching or passing a horse-drawn vehicle or a person

Given Three Months Sentence for Fraud By Passing Cheques

Everard Neave, charged with obtaining money by false pretences, was sentenced to three months' imprisonment yesterday morning when he appeared before Judge J. C. McIntosh in County Court for sentence. Neave pleaded guilty to all four charges. His three months' sentence will commence immediately after completion of the sentence of three months given by Police Magistrate George Jay in the city police court, when he appeared for preliminary hearing. At that time he pleaded guilty to one charge and requested trial by a higher court on the remaining four.

Douglas Robinson, also charged with obtaining goods and money by false pretences, appeared before Judge McIntosh yesterday and pleaded guilty to five charges. He was remanded until today for sentence when County Court opens at 10:30 o'clock.

BANK MANAGER PASSES AWAY

Edgar S. V. McClintock, Aged Sixty-Six, Dies After Lengthy Illness

A moving spirit in the business life of this province was taken by death yesterday when Edgar S. V. McClintock, aged sixty-six, retired banker, passed away after a prolonged illness.

Mr. McClintock was the son of the late Lieut.-Col. T. C. McClintock and was born in Capetown, South Africa, on September 18, 1865. He was a nephew of the noted naval officer, Admiral Sir Leopold McClintock, member of the Sir John Franklin Arctic expedition, after whom Mr. McClintock's son is named.

When but a youth Mr. McClintock came to Canada and joined the staff of the Bank of Montreal at London, Ont. After three years there he was transferred to Vancouver and later to the Okanagan Valley, where he became manager of the Bank of Montreal at Penticton. In 1912 he was sent to Port Alberni to open a branch office there, and remained as manager of that institution until 1919, when he retired and took up his residence in Victoria.

Surviving him are his widow, Mrs. A. Julie McClintock, Cook Street; one son, Leopold D. McClintock, who is a member of the Bank of Montreal staff here; one daughter, Mrs. Gordon A. Cameron, St. David Street, and a brother, Capt. F. C. McClintock, of Johannesburg, South Africa.

The remains are resting at Hayward's B.C. Funeral Parlor, where services will be held. Details regarding the funeral will be announced later.

SOUTHERN COAST RAKED BY STORM

Fires Started by Lightning, Trees Blown Down, Harbor Traffic Tied Up

LOS ANGELES, Oct. 1 (AP).—A spectacular five-hour electrical and wind storm caused apprehension for the safety of the four-masted schooner Philippine, tied up harbor traffic, damaged oil fields to the extent of \$35,000 and paralyzed power lines in Southern California early today.

Fears for the schooner's safety were dispelled when it dropped anchor in the San Pedro roadstead with eleven persons aboard. After the bucking winds throughout the night, lightning started four reported fires. Traffic on at least two highways out of Los Angeles was blocked temporarily by trees blown down by the high wind. Hundreds of householders reported heavy coverings of dust in their homes. Many street signs were torn from buildings.

Vessels in the harbor due to depart remained inside the breakwater pending subsiding weather. A fifty-mile wind did considerable damage to pleasure boats.

Cuyler's Double Gives Cubs Win Over White Sox

CHICAGO, Oct. 1 (AP).—Cuyler's double, followed by Barton's single in the ninth inning, gave the Cubs a thrilling 1 to 0 victory over the White Sox today to even the battle for the city series championship at one game each. Bush and Fraser staged a great mound duel.

CITY MEMBER GIVES TRIBUTE TO WORK OF RT. HON. R. B. BENNETT

Continued from Page 1

Canada since the former Dominion can supply, is increased from twenty to twenty-eight. Of outstanding benefit to this country will be the tariff on canned salmon, lumber, newsprint and some other items for export. On the other hand Canada undertakes to buy or to give a tariff which should stimulate buying such things as Australian wool, wheat, wine, raisins, currants, sugar and canned meats. The tariff on Australian butter is 5c, compared with 8c from other countries and 1c herebefore.

HEROIC METHODS INVOKED

Another instance of the attempt of the Americans to invade the markets of Canada by adopting dumping methods was instigated by Mr. Plunkett. This was with regard to United States manufacturers in Ontario at a rate of \$1.85. The makers of the United States declared that they were not going to allow the Ontario market to be lost. At all costs they were going to keep it. In order to meet this situation it became necessary to invoke the provisions of the new tariff board, which seemed an unreasonable one. It was, however, necessary to this to save the market to Canadian producers.

In this connection a member said that the new tariff board to be appointed would be able to deal with just such a matter as the complaint about the price charged for peaches.

NEW TARIFF BOARD

"The new tariff board will consist of three members, a chairman and two others. They will hold office for a period of ten years and will be eligible for reappointment. The new board will act under statutory authority and have full power to recommend changes in the tariff. In these respects it will be a great advance on the former tariff board, which was created by order-in-council and had no proper foundation of authority."

The Prime Minister contends that the board should hold office beyond the term of any government, and the members should be in a position where they will not be deterred from the discharge of their duties by any thought of the personnel or of the policies of a given administration. Their power will be to recommend changes. They will constitute in every sense a judicial tribunal charged with—not the making of decisions upon the facts, but the determination of what the facts are. In addition to its fact-finding powers, the board may be used for the purpose of investigations into the operation of the Customs Act and under the provisions of the Customs Act which heretofore have been dealt with by the Minister."

Mr. Plunkett dealt at some length with the new Australian treaty, which he pointed out would be of more advantage to Canada than to any other province of the Dominion. In connection with it he paid a high compliment to the Hon. H. H. Stevens, the leading part he played in the carrying through of the treaty. The done this in a manner which he had done in view of the fact that Mr. Stevens at the time was far from being a well man.

It was the Conservative Government that broke the treaty with New Zealand, but a Liberal Government, he said.

Under the treaty of commerce between Canada and Australia, the Australian tariff, gives the Dominion a substantial preference on a potential market of \$630,000,000 annually. Mr. Plunkett, Australia, each year, buys approximately \$300,000,000 from foreign countries. Canada is in a position to supply Australia with most of these commodities. In the matter of such commodities as newsprint, lumber, tinmed salmon, automobiles, and so forth, hardly any doubt can exist but that our exports to Australia will increase enormously. We ought to add to our Australian exports by millions of dollars annually.

Australia, of course, receives some like benefits. We have given Australia a substantial preference for fruits, sugar, rice and other commodities we do not produce. This, however, has been done in a manner to withhold any injury from Canadian agriculture and the Canadian fruit industry just as the preferences given to Canada by Australia are designed to prevent injury to any important industry over there. The entire treaty, indeed, recognizes the fundamental truth, that preferences must have regard for local industries and that only with such recognition can they be successfully applied. In other words, there is an appreciation of the fact that to build up an industry in one part of the Empire at the expense of a similar industry in another part of the Empire, is not a gainful policy. What has been aimed at—and is something that all preferential policies should aim at—is that there shall be as much as possible of interchange of Empire goods as is consistent with the domestic prosperity of the respective Empire units.

ALL FOR EMPIRE

"All of us, irrespective of parties, should wish to see this treaty carried out. We are all in the same way for Empire trade, for the upbuilding of the Empire, and while we may disagree regarding the manner and methods in which this can be brought about, none of us should want to see failure of anything which tries to promote the principle. If we can sell more goods to Australia without hurting any Australian interest, and if Australia can sell us more goods without injury to any vital Canadian interest, then the countries can achieve gain which means prosperity for the whole of the Empire."

"Behind the new Australian Treaty there is the fundamental purpose of developing inter-Imperial trade. Australia extends to Canada a preference on 415 out of 493 items in her tariff, while the preference given to Australia by Canada, on such

things as the former Dominion can supply, is increased from twenty to twenty-eight. Of outstanding benefit to this country will be the tariff on canned salmon, lumber, newsprint and some other items for export. On the other hand Canada undertakes to buy or to give a tariff which should stimulate buying such things as Australian wool, wheat, wine, raisins, currants, sugar and canned meats. The tariff on Australian butter is 5c, compared with 8c from other countries and 1c herebefore."

WORK CHANGES

"Now, under this new treaty with Australia, if trouble arises over a particular kind of importation, the item in question becomes dutiable under the general tariff, pending an effort to reach a satisfactory arrangement. In other respects, without canceling the whole treaty, the preference will continue to operate without being interfered with."

"The great principle which governed in the negotiation of the new trade agreement between Canada and Australia is that such commodities as Australia produces and Canada requires shall find a favored place in Canadian markets. When goods or commodities which were produced in Australia would compete with Canadian goods or commodities, there must be such a tariff as would insure fair competition with Australian goods in the Commonwealth similar duties must be imposed."

ONE UNIQUE FEATURE

"Stress is laid upon one unique feature of the new treaty. It is that which makes it difficult the cancellation of the arrangement now concluded. It is sought to obviate the unfortunate occurrence with New Zealand, where the privilege of shipping butter to Canada at a duty of 1c per pound. The shipments obtained such proportions that Canada was compelled to give notice to New Zealand of the cancellation of the agreement which had been extended to that Dominion, whereupon New Zealand retaliated by withdrawing her preference for Canadian products. When Mr. Bennett took office over 40,000,000 pounds of butter had been imported into Canada from New Zealand."

Canadian lumber has an advantage of 20 shillings per thousand feet over our competitors in the States of Washington and Oregon. Lumber is a staple of the Dominion. Logs had a 10 per cent preference. Under the old trade agreement, Canada had no preference on lumber, while the new arrangement provides a preference of approximately \$5 per thousand feet, b.m. The potential market in Australia is \$20,000,000 per year.

CANADIAN NEWSPRINT

Canadian newsprint will enter Australia free, under this treaty, being a preference of 4c per ton over the product of a foreign country, or, in other words, a preference of 4c per ton. The preference has been increased from 15c to 20c under the new treaty. Canada last year sold \$4,000,000 worth of newsprint to Australia, whose total importations amounted to \$11,000,000.

Canned salmon receives a preference of 3d a pound over the foreign product, which means an increased preference from 10c to 12c per pound. Latest trade returns show an export from Canada to Australia of \$2,500,000.

Proceeding to the pre-election promises by Mr. Bennett, the speaker said that it was inconceivable on the part of the Liberals that a Prime Minister should live up to these promises.

"Payment of the full cost of old age pensions will be assumed by the Bennett Government as soon as the state of Federal finances permits," he said. "Premier Bennett's present decision to pay but 75 per cent of the pensions is merely a temporary measure, put forward during the present depression and in view of the other heavy expenditures in the provinces."

FINANCIAL MATTERS

Dealing with the financial situation and the task which faced Mr. Bennett in this matter, the member said the fact was disclosed in Parliament that some years ago the annual addition to the national debt was only \$7,000,000. In recent years, it was stated, the C.N.R. in a year had increased the debt by as much as \$120,000,000. Since April, 1919, the aggregate had amounted to the immense sum of \$1,665,000,000.

No one said Mr. Plunkett, wanted to see but one railway system in this country. At the same time, when extravagant expenditures were being made, such as those in some instances by the Canadian National, it became necessary to call a halt.

UNEMPLOYMENT RELIEF

The unemployment situation in the Dominion had been met in a many fashion by the Government. It was well that at this time the country had a real Canadian Prime Minister at the head of affairs. A strike cheque had been given the Government for the handling of this situation and the matter was being dealt with in a manner to insure against extreme measures during the winter. It was estimated that some 250,000 Canadians who were in distress from lack of employment would be given assistance during the winter from the Dominion or Provincial Governments or municipalities. A strike cheque had been made of conditions in all the larger cities and towns, and this estimate was based upon last winter's experience and upon preliminary reports recently received by the Department of Labor.

Something like 150,000 farmers in the southern portions of Saskatchewan, Manitoba and Alberta were virtually destitute and would require work and wages for themselves and fodder for their farm animals. Livestock to the number 150,000 would be taken from drought areas to spots where the feed was more plentiful.

ALL TREATED ALIKE

The task in large part which the Dominion was undertaking in this respect was one which it was not really obliged to face.

"In ten months the present Premier has caused \$80,000,000 to be spent for the relief of unemployment. Of this he had \$20,000,000 voted from the public treasury for use in Liberal and Progressive as well as Conservative provinces. There was no politics in this, all being treated alike."

"In the Province of British Columbia, 23,586 individuals have been given employment," the speaker continued, "700,926 man days' work, and 16,496 persons have received assistance by direct relief, or \$,977 families, to June 30, 1931."

Mr. Plunkett said that Canadians

WERE NOW BEGINNING TO RETURN TO THIS COUNTRY

This was different to conditions under Liberal rule in 1928 and 1929, when 132,619 entered the United States from this country.

TRADE SITUATION

In the matter of trade, when Mr. Bennett took office, there were total imports by Canada from the United States of \$893,585,482, with total exports from Canada to the United States of \$522,677,767, or a difference in favor of the United States of \$370,907,715.

"Comparing this statement with the latest Dominion return, we find for the eight months ending August 31, of this year, we imported goods valued at \$272,842,628 and our exports amounted to \$246,535,515, or a difference of only \$26,311,113, compared with a difference of \$370,907,715 in the year 1929," said Mr. Plunkett.

Other matters touched on by Mr. Plunkett were Dominion and Provincial taxation, with comments on hospital services and educational advantages, air mail routes and curtailment of unnecessary expense, increased revenue through taxation which, he said, was aimed to collect from those who could pay. He also reviewed some of the legislation passed at the last session of the House of Commons with comment. He mentioned the Beauchamp Inquiry and its results, the new tariff board and its duties, taking over of the Royal Mint by the Canadian Government, new and amended laws placed on the statute books.

PREMIER'S ACTIVITIES

Mr. Plunkett also dealt with a number of the accomplishments of Premier Bennett since taking office a year ago. Enumerating them, the speaker said:

"He has arranged to absorb 5 cents per bushel of the cost of sending Western Canadian wheat to market. Besides protecting the coal and steel industries, he has granted the coal mines of Eastern Canada a bonus on their production. By imposing the new coal duties, he has stimulated the replacing of United States anthracite by British anthracite throughout the Eastern and Central provinces. He has offered Great Britain and the other Dominions a policy of inter-Imperial preferences, which has been approved by all the other Dominions, and which will be adopted in the Mother Country as present conditions indicate. Mr. Bennett has converted \$434,400,000 of maturing Government bonds into long-term issues bearing a lower rate of interest. In so doing he has provided for and made a saving and a reduction of millions annually in the nation's interest burden."

"In appointing a comptroller of the Treasury, with authority over all governmental and departmental expenditures, Parliament is about to inaugurate a far-reaching system of national economy which will check leaks, curtail extravagance and save the taxpayers millions," Mr. Plunkett concluded.

DR. THOMAS CHISHOLM DIES

TORONTO, Oct. 1 (GP).—Dr. Thomas Chisholm, who sat as Conservative member of Parliament for East Huron from 1904 until 1911, died here tonight, a victim of heart trouble, complicated by pneumonia. He was ninety years old.

Addressing the gathering, Mayor Ansonb stated that the city had provided certain relief schemes and if the man refused to work it was their own business.

"We do not intend to pay a cent to you if you do not work. As a trustee of the public funds, I have no authority to pay out money for the Mayor."

The crowd was orderly, although the Mayor was interrupted on several occasions. A delegation of five interviewed the Mayor in his office and at noon the crowd dispersed.

"Now then, this for the match— and that bottle of Johnnie Walker"

one man say to another "This match is for a bottle of Johnnie Walker" you can be certain that whoever wins, they'll both be satisfied; since they're bound to share the bottle. JOHNNIE WALKER has been a good friend to golfers for years and years; since 1820, in fact—and still going strong.

LOCAL GRID MEN PROTEST

Question Ruling on Part of Official Over Disallowed Touch

VANCOUVER, Oct. 1.—New Westminster Docks may yet have to earn a victory over Victoria Capital in the Big Four Canadian Rugby League. The Royal City entry defeated Victoria 13-5 at Athletic Park on Wednesday night. But the Islanders have lodged a protest on the game, which will be decided at Victoria meeting tomorrow afternoon.
Victoria lodged their protest on a forward pass play which occurred in the third quarter of the game. The Islanders have a forward pass which was intercepted by a New Westminster man. He fumbled, however, and the ball, before touching the ground, was recovered by Jack Horne of the Island twelve.
Horne, with an open field in front of him, logged it up the field unopposed for a touchdown. But as Horne caught the ball, however, the whistle was blown, the play brought back and the pass ruled incomplete. Victoria claim that the play was perfectly legal, and figure they should have had a touchdown.

Fans Line Up At A's Park For Tickets

PHILADELPHIA, Oct. 1.—Two customers were in line early today before a ticket window which does not open until Monday morning. The situation is less fantastic, however, in view of the fact that the ticket window is at Shibe Park, where the Athletics and Cardinals will play the third game of the world series on Monday.
Twenty-four hours after George Cebaloun established himself before the ticket with a stool and blankets, Alberta Shulman, twenty, arrived last night and won the dubious distinction of being called "No. 2." Fifteen thousand baseball fans, more fortunate than those two, but with similar ideas as to the value of a seat from which the game can be viewed, rejoiced today at receiving letters from the Athletics management giving them the privilege of paying \$5.00 for a place in the grandstand. That privilege was denied to more than 100,000 other applicants.

Shell Transport Captures Stakes From Fast Field

NEWMARKET, Eng., Oct. 1 (AP).—Shell Transport, owned by W. M. Caketalet, won the Jockey Club Stakes today. The Aga Khan's Ut Majeur was second and Convoys, owned by A. R. Cox, was third. Marshall Field's Corn Belt was unplaced in a field of eleven.
The winner was a length and a half in front of Ut Majeur, a lashed seven by a neck. The betting was 8 to 1, 10 to 1 and 100 to 1. The stakes, \$10,000 with extras, and the distance a mile and three-quarters.

KINSMEN HEAD RESIGNS POST

E. B. Corby, President of Local Service Club, Is Transferred to Vancouver

E. B. Corby, president of the Victoria Kinmen Club, last night resigned his post as head of the organization, having been transferred by his firm to Vancouver. The resignation was received by the members at their regular dinner in the Empress Hotel, and Mr. Corby was sincerely thanked for his past work for the club by Dr. Arthur Poyntz, who expressed the regrets of the members.
Previous to his resignation, Mr. Corby presented to the members a report on the recent convention at Calgary, at which he represented the local organization.
During the meeting Dr. Poyntz was officially installed as vice-president of the club by Annale Helmsen, governor of Kinmen District No. 5.

WORLD'S SERIES NOTES

ST. LOUIS, Oct. 1 (AP).—Scalpers were asking from \$8.50 to \$15 for a \$5.50 reserved seat for today's game between the Athletics and Cardinals. Seats priced at \$8.50 were located beyond the first and third base lines. Internal Revenue agents were circulating through hotel lobbies, cigar stores and other places where tickets might be sold to see that only registered scalpers were dealing in them.

William Klem, of the National League, is umpire-in-chief of the world series. Klem is entering his fifteenth series, a record unequalled by any other umpire.

Since the two major leagues use baseballs that are slightly different, the National League ball will be in play in the games at St. Louis and the American League ball at Philadelphia. Unlike 1930, both balls have "raised seams." The National baseball also has a slightly thicker cover than in 1930, whereas the American League cover is similar to a year ago.

If Al Simmons chooses to hit a home run he will be obliged to drive the ball 450 feet into the centrefield bleachers. The distance from home plate to left field is 350 feet and to right field is 320 feet. There is a screen, however, in right field, and he will have to clear it. Babe Ruth cleared the screen twice three years ago, once driving a home run through a plate glass window across the street.

Wilkinson Road W.A.
A successful guest tea was held on Wednesday afternoon by the W.A. of the Wilkinson Road United Church, when many friends took tea and enjoyed the delightful programme which had been arranged. Those taking part were Miss Audrey Nixon, Mrs. A. V. Simpson, Mrs. Maxwell, Mr. Phillips and Miss D. Hodgson. On behalf of the ladies, a beautiful bouquet of roses was presented to Mrs. Switzer by Miss Etheridge, who, in a few well-chosen words, wished her success in the new charge to which she and Rev. Mr. Switzer are going. Tea was then served from tables which were tastefully arranged with Michaelmas daisies and roses, those in charge of tables being Mrs. Quick, Mrs. G. Jones, Mrs. Scott, Mrs. Campion, Mrs. W. J. Jones, Miss Etheridge and Miss Congdon.

Central W.C.T.U.
Mrs. William Grant led the devotional period at a meeting of the Central W.C.T.U., yesterday afternoon, at the Y.W.C.A. A parlor meeting will be held at the home of Mrs. E. E. Hinesley, Leonard Street, on October 22. Reports of the recent convention in New Westminster were read by the delegates. It was recommended that portions of the report given by leading medical men of Great Britain to the Minister of Transportation be published. An article dealing with the Japanese Marine Prohibition League was read. The following members are assisting with the Scientific Temperance contest in the Sunday schools: Mesdames Spofford, Harwood, Wilkinson and Gately.

ST. MARK'S
St. Mark's A.Y.P.A. held a meeting last night in the parish hall, Tenynson Road, under the presidency of Miss Hazel Fletcher. Reports from committees were given and several matters of importance brought up and discussed. Arrangements were completed for the supper and social gathering to be held on Saturday night. A splendid programme has been prepared, and the young people of the congregation are especially invited.

ST. MARK'S
The regular business meeting of St. Mark's A.Y.P.A. was held in the parish hall on September 3, with the president in the chair. Plans for a supper were also discussed. A.Y.P.A. Officers Installed After Church Service

St. Michael's Anglican Church, Royal Oak, was the scene of an impressive service on the occasion of the installation of the officers of the Victoria and District A.Y.P.A. local council. The service, which preceded the installation ceremony, was conducted by Rev. F. Comley, who commended the organization for the splendid work it was doing. In the parish hall later, the following officers for the coming year were installed by S. C. Hawkins, western secretary of the Dominion A.Y.P.A.: President, J. H. Aylwin; vice-president, D. Pitt; secretary, Miss K. Smith; treasurer, Brian Green. The constitution was amended to enlarge the number of officers, found necessary by the increase in the number of branches. Miss Dailain was unanimously elected honorary vice-president and Miss D. Young corresponding secretary. Reports showed that the branches of the A.Y.P.A. were sending in their quotas to the expenses of delegates going to the annual Dominion conference being held in Regina next week. At the conclusion of the meeting St. Michael's Branch president, Miss K. Griffin, served refreshments.

I.O.D.E. Activities

Camosun Chapter
At an executive meeting held yesterday the Camosun Chapter, I.O.D.E., made arrangements for the tea to be held at the home of Miss Agnew, 1322 Rockland Avenue, from 3 to 6 o'clock, on October 7. The tea will be various attractions provided for the visitors, including fortune telling. The hope chest will be awarded during the course of the afternoon.

Girl Guide Notes

SIDNEY
The monthly meeting of the Sidney Guide and Brownie Association was held recently, Mrs. L. Goddard in the chair. After the regular routine business was disposed of, plans were discussed for raising necessary funds for coming expenses. Wednesday afternoon, October 28, was set as the date for the holding of a silver tea. Besides afternoon tea, there will be a home cooking, candy and fancy work. The "lucky tub" will be another attraction. Conveners were appointed, and the meeting adjourned.

LADIES WANT TO STUDY ENGINES

Night School Classes Began
Work Last Night at High School

A special ladies' class for the study of gasoline engines may be organized in connection with the night school, which began its 1931-32 season last evening under the auspices of the Victoria School Board. W. H. Binns, supervisor of the school, stated that he had had several applications from ladies who wished to study the gasoline engine and, when informed that they would be very welcome at the general class, he announced on the spot that he would meet with a pressing request for the formation of a class for ladies only.

At first Mr. Binns regarded the idea with some amusement, but later decided that the ladies might have good reason for preferring to belong to a class where the members would start on a more equal footing in mechanical knowledge than would be possible in a mixed class with some members already quite familiar with the mechanics of the engine. If a sufficient number of women apply for admission to such a class, he now announces, the ladies' group will be organized.

Meeting in the high school classrooms, with an excellent type of student, the majority of the night school classes completed organization last evening, although little else was done on this opening night. Regulations are quite up to standard, and probably slightly more than usual, although the supervisor was unable to give any definite final pending the receipt of figures from two or three of the teachers.

POPULAR CLASSES

Among the more popular classes are the commercial classes, all of which have big registration, particularly in salesmanship, under H. A. Lupton; the woodwork class, under L. A. Campbell and R. F. Goldfinch, which has an enrollment of about forty; the metal work class, under G. A. Ansie and J. Rippon.

French and Spanish are attracting a very gratifying number, the latter, under Mr. Aylwin, already having a registration of sixteen, and Mme. Vivenot's class in French being as large as last year.

Even registered last evening in Mrs. Ina Ulthoff's design class and several more have made application with the idea of beginning work next week.

VARIED SUBJECTS

Further classes which began last evening were in penmanship; mathematics, under Robert Hutchison; the study of the Diesel engine; drafting, under Mr. Aylwin; and writing, under Arthur Checkley; figure drawing, under W. Menelaus; dressmaking and millinery, and a class in music instruction subjects, Miss Stuart and Mrs. Stubbs enlisted a good continuation class, and Rev. A. Schormann's class in "English for new Canadians" has had outlined for it an interesting programme.

All the foregoing classes are meeting at the Victoria High School and pupils may register any time for the next two weeks in any of these or classes being held elsewhere. Machine drafting and elementary drawing, sheet metal drafting, art metal work, machine shop practice and gasoline engines are among the night school subjects also.

POTTERY BEGINS

At Kingston Street School last night a class in pottery was started. Tonight at the school board offices, City Hall, Mr. Checkley will begin his class in fine arts, developing subjects which were taken during the summer at an outdoor sketching class conducted by the same teacher.

On Monday night the classes in public speaking, elementary French and cooking will be organized.

Y.M.C.A. APPLE DAY TOMORROW

Public Is Urged to Support Plea for Assistance to Be Made on City Streets

In the world of sport, athletes of the Victoria Y.M.C.A. have brought wide fame to this city. Their activities include practically every branch of sport, while some of the members hold Dominion and provincial titles for their achievements.

It is this kind of work that will benefit from the Y.M.C.A. Apple Day tomorrow. Achievements such as those of the Y.M.C.A. members are worthy of praise and for this reason citizens of Victoria have not been backward in offering their assistance to the drive.

Apple Day offers everyone an opportunity to contribute to the Y.M.C.A. A small army of canvassers will start at 9 o'clock tomorrow morning and distribute itself throughout all parts of the city, on streets and in the business houses.

Contributions have been pouring in to the Y.M.C.A. for many weeks past. A small army of canvassers will start at 9 o'clock tomorrow morning and distribute itself throughout all parts of the city, on streets and in the business houses.

Here's a New Way to Be Economical

WHO said Hollywood fashions were extravagant? Here's Madge Evans, screen player, who shows how the modern maid is sometimes more economical than her mother. In (1) she is wearing a Florida jacket, relic of the mauve 90's. And here in (2) is how she cuts the high cost of dressing. Scissors do it by snipping off a single sleeve, which provides sufficient material for a rehearsal outfit. And if you don't believe it, there's the proof in (3).

Women's Institutes of Vancouver Island

SOOKE
The monthly meeting of the Sooke and North Sooke Women's Institute will be held in Sooke Hall today, at 2:30 p.m. The subject of holding dressmaking classes will be discussed. The annual masquerade and a children's masquerade will be considered and arrangements will be made.

ESQUIMALT
The social planned by Esquimalt Women's Institute for this evening has been postponed indefinitely.

LANGFORD
A silver tea was held by Langford Women's Institute on Wednesday afternoon, in the hall on Dunford Road, in aid of the workroom project for unemployed women, sponsored by women's organizations. Rev. A. L. Nixon was chairman, and during the afternoon Mrs. H. A. Hinkins explained to the guests the object of the workroom. Mrs. P. A. Sparks accompanied at the piano, and Mrs. Stevenson sang delightful solos. Miss Savory, Mrs. J. E. MacDonald and Miss Stella Hinkins were responsible for the decorations of the room, and Mrs. Hinkins had charge of a table of exhibits of flowers, fruit, vegetables, etc., from the gardens of the district. A twenty-dollar mangel, given by Mrs. G. Eldridge, was decided by popular vote to be the outstanding exhibit. The articles were later sold to help the cause. Mrs. D. Malcolm, the president, invited the guests to attend a card party in the Institute Hall on Wednesday, October 7, at 8 p.m. Cards will be played until 11 p.m. and dancing will follow.

SOUTH SAANICH
The South Saanich Women's Institute held a wool bee on Wednesday afternoon, at the Temperance Hall, East Saanich Road. Fifteen members were present and one wool comforter was made up, and the second one all ready for next Wednesday, when another bee will take place. Luncheon and afternoon tea was served by the ladies. The institute will commence its fortnightly card parties on Saturday, October 10, in the Temperance Hall, East Saanich Road. A series of prizes will be given at the end of the season to the man and woman with the highest score.

CHAPTER HAS PLANS FOR BRIDGE PARTY

As a mark of appreciation of her kind interest in the chapter's activities, a standing vote of sympathy was passed with Mrs. Herbert Anascomb in her bereavement, at the opening of the meeting of the Sir James and Lady Douglas Chapter, held yesterday.

Preliminary arrangements were made to hold a bridge tea on November 19, when the chapter commemorates the birthday of British Columbia. Mrs. J. B. Monk and Mrs. S. W. Walker will be joint conveners of the bridge tables, and Mrs. Paterson and Mrs. Barrowclough a committee to arrange for the refreshments.

The report of the Municipal Chapter meeting was given, and members endorsed the congratulations that were voted at that meeting to the Governor-General and Lady Bessborough on the birth of their son.

Mrs. R. B. McMicking reported having presented two buraries of \$5 each to two pupils, a boy and a girl, in the Sir James Douglas School. The educational secretary, Mrs. E. C. Hayward, brought in an interesting report and the chapter voted that seventy-five copies of the calendar be purchased, of which at least two copies shall be placed in the three schools in which the chapter is interested. Copies of "My Creed" will be placed in two schools.

The regent was elected as delegate to the semi-annual meeting of the Provincial Chapter, to be held in Duncan on October 14, five other members of the chapter signifying their intention of attending the meeting. Miss McMullin brought in the report of Girl Guides activities.

MEMBERSHIP GIVEN

SAINT JOHN, N.B., Oct. 1.—As a tribute to the memory of the late Mrs. Willoughby Cummings, for twenty-seven years editor of the Living Message, the life members of the Dominion board of the Women's Auxiliary of the Missionary Society of the Church of England in Canada, in convention here, today voted to confer life membership on her daughter. The life members' offering amounted to \$368, and they voted to give \$50 for the tribute to Mrs. Cummings, \$200 towards British Columbia Coast Missions, and \$118 towards purchasing a piano for the Single Point Mission in the Arctic.

The convention ends tomorrow. Results of balloting announced were as follows: Vice-president for Eastern Canada, Miss Pope, Quebec, re-elected; secretary-treasurer, Mrs. F. J. Briner, Victoria, re-elected; candidates' secretary, Mrs. Agnes, Toronto.

Go Out of Your Way To Get B.C. Products During British Columbia Week

WE make no apologies for asking you to scrutinize carefully every cent you spend during British Columbia Week and see just how much you can spend for the good of British Columbia.

Your total purchases during the week may not seem important, but, when you consider how much 600,000 people spend every week, you will recognize the importance of your co-operation. Once you discover how much real value and satisfaction you can get in purchasing Made-in-B.C. goods you will want to make every week a British Columbia Week.

CAPITOL "Rebound," an RKO

THEATRE Picture starring

Lina Claire, opened last

night to an enthusiastic audience at

the Capitol Theatre. It is the kind

of story Miss Claire likes to do—

and Sara is the kind of character

she likes to portray. "Rebound" is

a comedy-drama by Donald Ogden

Stewart, with clever lines, and

smart, sophisticated humor through-

out. And Lina Claire more than

anybody else knows how to put over

such a story.

DOMINION Youth, its fire and

personality, its refusal

to bow to the conven-

tional, its modern penchant for

leaping from obscurity to fame

overnight, is nowhere more strik-

ingly exemplified than in the cast

of Paramount's "An American

Tragedy," the mighty drama based

on Theodore Dreiser's epic novel

which will show at the Dominion

Theatre last times today.

COLUMBIA Loretta Young now

knows the thrill of

being kidnapped as

the result of her work in "I Like

Your Nerve," new First National

Theatre picture now showing at the Colum-

bia Theatre. In it she is forcibly

abducted by the star, Douglas Fair-

banks, Jr., in a story filled with ac-

tion, romance, and adventure in se-

quence after sequence of well-built

suspense.

PLAYHOUSE The G. Donald Gray

Stock Company, in

its opening week at

the Playhouse Theatre in Chaucery

Court's old time success, "The Isle

of Dreams," has proved exceedingly

popular with large audiences that

have been present every evening so

far this week. The various mem-

bers of the company are quickly

winning many admirers, and it is

now safe to say that the company

will be here throughout the winter

months.

COLISEUM Bert Wheeler and

Theatre Robert Woolsey have

not attained their

second childhood, although their

antics in their latest fun picture,

"Cracked Nuts," at the Coliseum

Theatre, may suggest such an event.

They seriously engage in a game of

toy soldiers, but the reward is the

"beautiful kingdom of El Dorado."

"Cracked Nuts" was written by the

wise-cracking Al Boasberg and

Douglas MacLean, long identified

in film comedy fields.

NATIVES IN CAST OF

SOUTH SEA ROMANCE

Polynesians are the principal

and supporting actors in the

romantic drama of the South Seas

coming to the Coliseum Theatre.

This picture is the result of four-

teen months work in the islands of

the Society group, in the South Pa-

cific, some 300 miles from Tahiti.

Most of the film was taken on

Bora Bora, a small but beautiful

mountainous island which rises gra-

ciously from the azure bosom of the

broad Pacific.

The natives of these islands are

of the Polynesian race—fair-

skinned, black-haired people who

are akin to the Hawaiians.

Two of them, Matahi and Reri, a

handsome youth and a beautiful

maiden, were selected as the hero

and heroine of the production.

GORGEOUS COSTUMES

FEATURE STAGE PLAY

"Sidelights of Opera," which is to

be presented by Bianca Saroya, so-

prano, and Dimitri Onofrei, tenor,

of the Philadelphia Grand Opera

Company, on Saturday evening, Oct. 3,

in the Shrine Auditorium, is a presen-

tation of the National Music

Company, of New York.

The "highlight" of this opera is

the third act—the love scene be-

tween Marguerite and Faust in her

garden. In the first act, Faust

actually meets her and falls more

deeply in love with her.

These gifted singers and actors

will perform the respective scenes

in the most gorgeous costumes, and

with special scenery brought for the

occasion.

SEATS NOW ON SALE

FOR STAGE PLAYERS

Students and scholars who are

studying Shakespeare in their

classes will welcome the appearance

at the Shrine Hall on October 5 of

Leslie Manners and Miss Jessica

Dale-Lee, brilliant exponents of

Shakespearean drama, to see the

best known and most popular char-

acters of Shakespeare brought to

life. Shakespeare wrote for the

stage, and only through the medium

of the stage can his works be thor-

oughly appreciated and understood.

The actor adds to the written

word a dramatic valuation and a

psychological interpretation. An-

elsewhere, the masters and teachers

of Victoria have shown the keenest

interest, it is anticipated that the

forthcoming performance will be at-

tended by a very large number of

students.

Tickets for the appearance of

these noted artists are now on sale

at Fletcher Bros. Music Store.

TALENTED LECTURER

is acknowledged as not only the

cleverest character analyst, but one

of the most entertaining speakers

on the lecture platform today, will

begin a series of lectures in the

Chamber of Commerce next Mon-

TUSCARORA CHIEF
SPENDS WEEK OF
HONEYMOON IN JAIL

OTTAWA, Oct. 1 (CP).—Clinton

Rickard, chief of the Tuscarora

and resident of Buffalo, N.Y., is free

today to continue his honeymoon,

recently interrupted when he was

arrested at a meeting on the

Manitaki Reserve.

The chief got into trouble with

the Canadian authorities four days

after his marriage and was arrested

on a charge of collecting about

\$1,200 to prosecute some claims

against the Government, which is

contrary to the Indian Act.

After he had spent a week in the

Hull jail, Rickard was released on

bail, and today when his case was

called, Henri Lorange, barrister,

acting for the Department of In-

dian Affairs, stated he had been in-

structed to drop the charge.

PHIL TAYLOR TAKES LEAD IN B.C. OPEN GOLF

Enid Wilson Downed In Canadian Golf by Mrs. Fraser, One Up

British Champion Eliminated by Strong Ottawa Player After Great Match—Marjorie Kerr Still In—Maureen Orcutt Survives

TORONTO, Oct. 1 (CP).—An international final is assured in the Canadian women's open golf championship. As a result of today's quarter-final round of the tournament, two Canadians and two United States players will oppose each other in the semi-final tomorrow.

Continuing her impressive display, Mrs. Fraser, of Englewood, N.J., eliminated Marion Hollins, of Santa Cruz, Cal., 5 and 4. The other surviving United States entrant is Virginia Van Wye, of Chicago, Ill., who overcame the threat of Mrs. O. S. Hill, of Kansas City, Mo., 2 and 1.

In one of the feature matches of the day, Mrs. Alexia Sterling Fraser, of Ottawa, defeated Enid Wilson, British open champion, 1 up. The other British contender, Marjorie Kerr, suffered elimination at the hands of Marjorie Kirkham, of Montreal, Canadian closed champion.

Tomorrow Miss Orcutt and Miss Van Wye will battle over the hilly Rosedale course in one bracket of the semi-final, while Mrs. Fraser and Miss Kirkham decide the Canadian representative for the final in the other bracket.

STARTED WELL

The British open champion commenced today in brilliant fashion, with a par on the first and then two successive birdies. She established a five-hole lead over her

DOT WEISEL ELIMINATES MRS. HARPER

First Ranking Player a Year Ago Defeated in Pacific Coast Tennis

PERRY AND HUGHES ADVANCE IN DOUBLES

SAN FRANCISCO, Oct. 1 (AP).—While favorites in the men's division marched forward without much trouble today in the annual Pacific Coast tennis championships, the women's singles saw the second major upset of the week chalked up. Mrs. Anna Harper, of Oakland, national ranking player last year, was defeated by Dorothy Weisel, slim Sacramento girl, by scores of 10-8, 6-4. Miss Weisel outdistanced her formidable opponent in a fast game.

As a result of the victory, Miss Weisel will meet Edith Cross, San Francisco, in the final on Saturday. Mrs. Cross, who upset the hopes of Helen Jacobs earlier in the week, became a finalist through a 6-4, 6-2 win today over Alice Marble, San Francisco.

VINES ADVANCES

Ellsworth Vines, of Pasadena, national champion, played his first matches today and disposed of two opponents without difficulty. He defeated Gerald Hyde, San Francisco, 6-1, 6-0, and followed it up with a 4-6, 6-1, 6-5 victory over Neil Brown, another local entrant. Vines will face Gordon Jason, San Francisco, in a quarter-final tomorrow.

George Loti, of Philadelphia, defending Coast singles champion, defeated Gerald Startford, San Francisco, 6-6, 6-3. Sidney Wood downed Ed Chandler, San Francisco, 4-6, 6-3, 7-5.

Frederick Perry and George P. Hughes, British Davis Cup team members, paired up to win a men's doubles match in the quarter-finals. The Englishmen defeated Neil Brown and Gerald Startford, San Francisco, 5-7, 6-3, 6-2. After dropping the opening set, the visitors set a pace that was entirely too fast for the opposition.

Shoots 72 and 69 to Take Four-Stroke Lead on Field at Half-Way Mark—Kenny Black and Don Sutherland Tied for Second Place With 145—Dunc Sutherland Third

Bob Morrison Well Up With 147; Young Ken Lawson Has Best Net

Phil Taylor, sharpshooting pro of the Victoria Golf Club, held a four-stroke lead on the rest of the field as the halfway mark of the British Columbia open golf championship was reached yesterday at the Uplands Club. Taylor shot two fine rounds of 72 and 69 for a thirty-six hole total of 141, four strokes in front of young Kenny Black, Shaughnessy amateur, and Don Sutherland, Burnaby pro, who were tied for second place with 145. Ideal weather favored the contestants yesterday, and the course was in excellent shape. The final thirty-six holes will be played today.

Dunc Sutherland, Point Grey pro, was in third place with 146, and was followed by Bob Morrison, Uplands and city champion, who had 147. Dave Black, the defending champion, was next with 148, while Ernie Tait, Marine Drive, carded two rounds for a total of 150. Walter Gravin, Uplands pro; Harold Lineham, Colwood's most-situated amateur, and Harry Winder, Point Grey amateur, were next in line with scores of 151.

BRILLIANT DISPLAY

Taylor in taking the lead, played out brilliant golf throughout. In the morning he had a 72, two strokes over par, and in the afternoon he beat par by one stroke, carding an eagle and three birdies. Only on

notables in the world of sport outside of golf. Among the contenders was no other than Jimmy McLarnin, fourth ranking welterweight of the world. McLarnin is apparently not so skilful with golf clubs as he is with boxing gloves and finished well down the list with cards of 88 and 82, for a total of 160.

Another well-known figure in the sport world entered is Jack Pratt, member of the Boston Bruins hockey team of the National League. Pratt, local hockey fana will remember, was with the Portland Buckaroos and played with that team here three years ago. Last year he was bought by the Bruins and won a regular berth on the defence with the runners-up to the Montreal Canadiens in the Stanley Cup series. Pratt plays a good game of golf and went around yesterday in 78 and 83.

Ken Lawson, fourteen-year-old schoolboy, had the best net score among the amateurs with two consistent rounds of 78. His handicap of 13 gave him a net of 190, five strokes in front of Kenny Black, who had a gross 145, which, with his handicap of 10, reduced to a net 135.

Little World's Series Evened

ST. PAUL, Oct. 1 (AP).—Behind splendid pitching by Herman Bell, Rochester played brilliantly today to defeat St. Paul, 5 to 2, and pull up even in the little world's series.

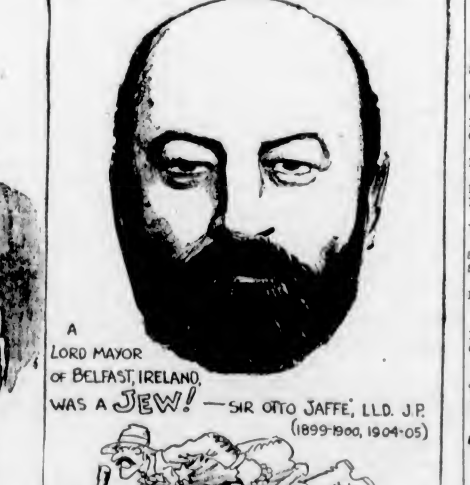

St. Paul won yesterday, 4 to 1, in a star young right-hander, from the box in the sixth inning, the International League champions scored four runs on four hits and two bases on balls. They added another run off Harris in the ninth on a walk, a single and Pepper's long fly. Bell held St. Paul to six hits, one a homer by Murphy.

McLarnin Will Meet Either Leonard Or Champion Thompson Next

JIMMY McLarnin, who is playing in the British Columbia open golf tournament at Uplands Club, stated yesterday that his next bout would either be a ten-round exhibition with Benny Leonard or a fifteen-round battle for the welterweight championship against Young Jackie Thompson, titleholder. The bouts will be held at Madison Square Garden in December in aid of the milk fund. McLarnin said he saw Leonard training in the East, and he rates the retired lightweight champion, who is staging a comeback, highly.

EXPLANATION FOR YESTERDAY'S RIPLEY CARTOON

The Expression Quiz Is the Result of a Wager—Quia and all its derivatives originated in a joke. Richard Daly, a famous Irish character of Dublin, Ireland, and an inveterate bettor, wagered that he will within twenty-four hours introduce a meaningless new word into the English language. The four letters Q U I Z were then chalked and posted on every wall in Dublin and Daly won his bet. He was, at the time, the manager of the Theatre Royal, in Dublin, 1789.

Semi-Professionalism Charge Is Registered

Montreal Man Declares Simon-Pure Golfers Are Being Encouraged Along Lines Not in Keeping With True Amateur Spirit

MONTREAL, Oct. 1 (CP).—Growth of "semi-professionalism" in the game has caused the resignation of R. J. R. Stokes, Montreal, for the past ten years honorary secretary-treasurer of the Province of Quebec Golf Association, he stated today in a letter to the president, George H. Forster, of Montreal.

"Unfortunately, during the past two or three years, encouragement has been given to players by clubs, transportation companies and sporting goods manufacturers, which has not been consistent with the true amateur spirit," Stokes declared.

The retiring secretary-treasurer stated that abuses "are beginning to make headway, and unless the various governing bodies take action to see that the amateur status is strictly enforced, competitive amateur golf must eventually get to a point where it will be extremely

Philadelphia won the first game of the series, 10 to 3, in the afternoon. Taylor, after hitting a magnificent drive, laid his next wood on the long twelfth about six feet from the pin and then holed his putt for a birdie three. On the next hole he drove the green and then sunk a fine putt for a birdie two.

Kenny Black, recent member of the British Columbia team which played in the Canadian championship at Montreal, played sound golf in going into second place and leading the amateurs. Black was around in 75 in the morning and squared par in the afternoon with a 70 for a total of 145. Don Sutherland shot consistent golf also, taking 73 in the first round and 72 in the afternoon.

Morrison, who reached the semi-finals of the Canadian amateur championship, had rounds of 75 and 72, for a total of 147. Dave Black had two 74s and had to be content to rest three strokes behind his son, Ken.

National Leaguers Score Two Runs in First Inning but Mackmen Come Back Strong to Garner Four in Third and Two in Seventh—Grove Tightens Up After Shaky Start

Al Simmons Hits Homer With One On

SPORTSMAN'S PARK, ST. LOUIS, Oct. 1 (AP).—The Philadelphia Athletics unlimbered their heavy artillery on the enemy's home battleground today, fired two booming salvos that crushed the youthful Cardinals' sharpshooter, Paul Derringer, and moved triumphantly toward their goal of a third successive world baseball championship.

The final score was 6 to 2 as the Athletics, in a characteristically skillful exhibition, subdued St. Louis in the opening skirmish of the big series behind the somewhat erratic left-handed pitching of the great Robert Moses Grove. A howling, hopeful crowd of 38,529 home town customers came out to cheer the Cardinals in their first attempt to stop Connie Mack's steam roller. They saw the great Grove hit briskly, touched for two runs in the first inning, only to steady and pitch himself out of a flock of critical situations in holding the National League champions scoreless for the rest of the game.

CHAMPIONS OUTHIT
The Red Birds outhit the world champions, twelve to eleven, but the big guns of the A's were more destructive and accomplished the downfall of the youthful Derringer in decisive fashion. Four runs in a wild third inning, when Derringer lost control, forced in the tying run and then was blasted for a single

by Jimmy Fox with the bases full, decided the game.
As a parting salute Al Simmons drove a home run into the left field bleachers in the seventh inning with Mickey Cochrane on base. After that wallop the fading Cardinals flickered out, Derringer yielding to a pinch hitter, Sylvester Johnson held the A's hitless in the last two innings.

The Athletics won like the favorites and world champions that they are, in blasting the hopes that the National Leaguers had placed on the youthful Derringer, a "freshman" big leaguer making his first world series start.

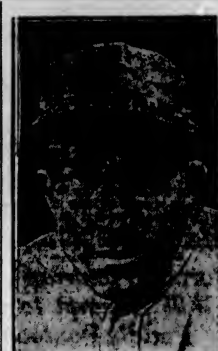

For two innings, as he struck out four of the six batters to face him, the twenty-five-year-old Kentucky boy looked like the sensation he was expected to be. He fanned Bishop and Haas to start the game, and struck out Fox and Miller in the second inning. It was a brilliant start, too good to be true.

BIG THIRD INNING
Jimmy Dykes led the first big attack of the A's, and before it was over hits by Dibs Williams, Mule Haas and Jimmy Fox, interspersed with passes to Cochrane and Simmons, accounted for four runs.

Lefty Grove bore down in the stretch to choke off any lingering danger in the Cardinal bats. It was not a brilliant day for the famous southpaw, although he had remarkably fine control and was master of the situation in the pinches after the first inning, aided by the steady and at times spectacular defence put up by his teammates.

Grove was hit harder than Derringer, however, all the way. He fanned seven Cards, whereas Derringer's deceptive curves set down nine of the A's on strikes.

The Cards jumped on Grove at the start with such vehemence that it looked like a very bad afternoon indeed for the southpaw, who set a new winning percentage record and then was blasted for a single

AL SIMMONS

star outfielder and leading hitter of the Athletics, who poked out a home run in the seventh inning of yesterday's series opener against St. Louis Cards. Simmons' dramatic drive with Mickey Cochrane on base. The blow put the game on ice for the champions. It was the only four-base hit of the game.

Robert Moses fanned Andy High, the third base replacement for the injured Sparky Adams, but was touched for successive singles by Roettiger, Frank Frisch and Jim Bottomley, followed by a double by "Pepper" Martin, youthful outfielder. This accounted for the only two markers the National Leaguers posted.

FIRST INNING

Athletics—Bishop up. A preliminary conference among the umpires and field leaders caused some delay. The crowd stood for the National Anthem. Bishop up. Ball one outside and low. Strike one. It was a fast ball, waist high. Bishop took a second strike over inside cor-

ner. Bishop fanned swinging and the crowd roared. Haas up. Foul strike one. Haas chopped the ball into the dirt. Haas struck out, swinging at last curve. Cochrane up. Ball one, outside. Cochrane grounded to Gelbert and was out at first.

No runs. No hits. No errors. None left.

Cardinals—High up. Strike one. It was a fast ball inside. Strike two, foul. The ball glanced toward the dugout. High struck out, taking a called third strike. Roettiger up. Strike one. It was a fast one over the heart of the plate. Foul, strike two. The ball bounced into the upper tier behind the plate. Ball one, low, inside. Roettiger singled cleanly into centre field. Frisch up. Strike one called. Foul, strike two. The ball went over the grandstand roof behind the plate. Foul into lower boxes off first base line. Frisch singled to right and Roettiger dashed to third base.

The hit and run play was executed beautifully. Bottomley up. Strike one, he swung. Foul, strike two. The ball glanced into the back screen. Bottomley hit over second base and Roettiger scored. Bishop stopped the ball but was unable to make a play and it was a hit. Frisch stopped at second. Ball one, low, inside. Foul, strike two, the ball going into the boxes off the right field. Foul, the ball glancing behind the plate. Foul into the stands back of the third base. Ball one, low, inside. Foul, strike two. The ball bounded back of the plate. Ball one, high. Martin hit against the right screen, scoring Frisch and sending Bottomley to third. It was a two-base hit. Wilson up. Wilson grounded out to Williams, to Fox.

Two runs. Four hits. No errors. Two left.

SECOND INNING

Athletics—Simmons up. Foul, strike one. The ball skied into the right field stands. Ball one, high. Foul, strike two. The ball caromed behind the plate. Simmons grounded out, Gelbert to Bottomley. Fox up. Strike one, swinging. Strike two, he swung again. Strike two, on a called third strike and the crowd howled. Miller up. Ball one, low. Strike one, he swung. Ball two, high and wide. Foul. The ball bounded off Wilson's mask. Foul into the upper tier behind the plate. Miller struck out. He was Derringer's fourth strikeout victim, and the young right-hander received a tremendous cheer as he went to the dugout.

No runs. No hits. No errors. None left.

Cardinals—Gelbert up. Ball one, low. Strike one called. Ball two inside. Foul strike two. The ball hit into the dirt. Foul into the stands back of first base. Foul into the upper deck off first. Ball three, low and inside. Foul into the upper tier back of the plate. Gelbert flied out to Miller. Derringer up. There was another outburst of applause for the pitcher. Strike one, swinging. Ball one, wide. Derringer bounded to Williams and was thrown out at first. High up. Strike one. It went back the up deck off third base. High singled into right field, connecting with an underhand fast ball. Roettiger up. Foul strike one. The ball rolled off the screen in back of the plate. Foul, strike two. It was another one into the screen. Grove was pitching deliberately and taking a lot of time with his delivery. Roettiger flied to Haas, the centre fielder racing over to the right field wall to make the catch.

No runs. One hit. No errors. One left.

THIRD INNING

Athletics—Dykes up. Dykes singled off High's glove. It was a sharp drive and too hot to handle. Williams up. Ball one, outside. Strike one, swinging. Ball two, low, outside. Williams singled sharply past first base and Dykes raced to third, sliding into the bag. Grove up. Strike one, swinging. Ball one, inside. Strike two called. Strike three. Grove fanned, with the bat on his shoulder. Bishop up. Strike one called. Derringer then to first. Foul, strike two. Foul. The ball went over the stand behind the plate. Bishop hit to Bottomley and Dykes was run down between home and third, Wilson making the put-out after a short chase. The play was Bottomley to Wilson to High to Wilson. Haas up. Williams scored on Haas' two-base hit to left field. Bishop stopped at third base. Cochrane up. Ball one. Ball two, high and inside. Ball three, high. Strike one called. Ball four, Cochrane walked and the bases were filled. Simmons up. Ball one, inside. Simmons backed away. Ball two, low. The crowd boomed its decision. Foul, strike one. Strike two called. It was a fast ball inside. Ball three. It was inside. Simmons walked, forcing in Bishop. Fox up. Ball one, inside. Foul, strike two. Haas and Cochrane scored on Fox's line single through the infield to centre. Simmons stopped at second. Miller up. Foul, strike one. Inside. Miller hit in front of the plate and was out, Wilson to Bottomley.

Four runs. Four hits. No errors. Two left.

Cardinals—Johnson was warming up for the Cardinals as the inning ended. Frisch up. Ball one. Ball two, it was inside. Strike one called. Grove was putting a lot of smoke on the ball. Strike two, called. The crowd again boomed. Foul into the upper stands behind first. Frisch drove a long fly to Miller. Bottomley up. Strike one, swinging. Strike two, he swung at a fast ball inside. Foul, back of plate. Ball one, outside, foul, back of the upper deck of stands back of plate. Bottomley hoisted to Miller. Haas up. Foul, strike one. Haas popped the ball off the third base. Strike two, swinging at a low fast ball.

No runs. No hits. No errors. None left.

FOURTH INNING

Athletics—Dykes up. Strike one, called. Dykes singled on a Texas leaguer over Gelbert's head for his second straight hit. Williams up. Strike one, swinging. Strike two, he missed a sweeping curve. Williams fanned, breezing the third one. Grove up. Ball one, high outside. Strike one, called. Strike two, Lefty swung like Simmons. Ball two, inside. Grove struck out, swinging. He was Derringer's seventh strikeout victim. Bishop up. Ball one,

inside. Strike one, called. Bishop singled into right, but Dykes stopped at second. Haas up. Strike one, called. Haas was thrown out, Frisch to Bottomley.

No runs. Two hits. No errors. Two left.

Cardinals—Martin up. Foul, strike one. It was over the stands in back of the plate. Ball one, low. Martin singled sharply to left. It was his second strike. Wilson up. Strike one, called. Foul, strike two. The ball bounded back into the upper stands. Ball one, inside. Wilson hit into a double play. Bishop to Williams to Fox. Gelbert up. Strike one, called. Ball one, low. Gelbert singled over second base. Derringer up. Strike one, swinging. Foul, strike two. It was into the lower stands back of the plate. Derringer struck out, swinging.

No runs. Two hits. No errors. One left.

FIFTH INNING

Athletics—Cochrane up. Cochrane drove a single to right centre on the first ball pitched. Simmons up. Ball one, low. Foul, strike one. It went into the upper tier off first base line. Foul, strike two, in the same spot. Foul. It cleared the upper deck in back of the plate. Foul, among the photographers on top of the roof. Foul, down the third base line. A spectator scrambled out of the boxes to get the ball and the crowd roared. Ball two. Simmons had to squat down to avoid being hit. Simmons fanned, taking third called strike. Fox up. "It won't hurt a bit"

"Now, don't worry, this won't hurt a bit. You'll feel a hundred percent better when I'm through. You look terrible with a week's growth of stubble on your face and I'm not going to put off shaving you a single day longer. *** No I won't wait. You're going to have some visitors today and you look like the wild man from Borneo. Didn't I tell you it won't hurt? I've got a new Gillette blade in the razor. One of the doctors told me it's the finest blade he ever used. Come on, now, let's go, we've got to get those whiskers off."

Nurse is right, absolutely right. The patient is due for a pleasant surprise. The new Gillette blade is amazingly keen and smooth. It's made to shave tender skin lightly and cleanly without

a bit of razor smart or burn. Prove to your complete satisfaction that shaving can be thoroughly comfortable and fairly enjoyable. Buy a package of new Gillette blades on our money-back guarantee and try them. You must be thoroughly satisfied, or return the package to your dealer and he'll refund the purchase price.

RUSSIA'S PLAN NOT PROMISING

J. B. Clearhugh Tells Rotarians of New System Attempted by Communists

The "Five Year Plan in Russia" was the subject of an address by Joseph B. Clearhugh at the Rotary Club meeting yesterday in the Empress Hotel. The speaker did not pretend to have any inside information regarding the subject. He said he had made a study as fully as he could from all the information available, and from this he gave the main features of the plan.

Mr. Clearhugh declared it was impossible to predict what the future would be. He was of the opinion that the effects would not materialize as expected by the protagonists of the plan. With the increased demand, which would be created in Russia itself for greater food and other supplies, the speaker was inclined to the belief that within the country itself the surplus production, which promised to be created, might be absorbed. Success for the plan depended, it appeared, upon the ability to enslave the people.

The speaker, tracing the history

of the movement in Russia, said that it started with an attempt, on the part of the Communist party, to attack capitalism throughout the world. The Communist movement was closely wrapped up in a world-wide revolution, and was a challenge on a gigantic scale of the proletariat against capitalism.

TROUBLE WITH FARMERS

As long as the move was confined to the industrial side, the situation was not too bad for the leaders. He recalled the efforts made to establish industries in the country. The people were rationed, but outside of rationing as to food the plan broke down. The result was that the leaders had to authorize the opening of stores.

When the agricultural side of the population was affected, the problem became more grave. When the attempt was made to confiscate the land and wipe out the independent farmers, the situation was not taken complacently by those concerned. The farmers evaded the rule and a remodeling of the plan, as it affected agriculture, had to be made. Collective farms instead of state ones had to be allowed. A sort of pooling system was established.

Problems had arisen such as the supplying of skilled labor. In an industrial way the production of tractors and coal had fallen down from the mark set. The transportation system got out of control last year. The labor market also broke down. Practical slavery had been introduced.

In a financial way the Govern-

ment fell down and the situation appeared to be a desperate one with the Government offering its paper at a discount of 20 per cent in New York.

Stalin, speaking in June, 1931, made the statement that, in the matter of wages, piece work principles would be applied. A dictatorial management was to be followed, and in addition to this the intelligentsia was invited back to assist in the solution.

In introducing the speaker, S. Armstrong, chairman of the international service committee, explained that this was one of a series of addresses intended for better understanding of international relations.

CULBERTSON ON CONTRACT

THE UNIVERSAL RECREATION

While confusion of tongues has been a fertile breeding-ground of misunderstanding and conflict among nations, so much so that some students of humankind have made a life work of the establishment of a common universal language, there is common agreement in the occupation for man's leisure hours. From the North Pole to the South and from the shores of Africa to those of Alaska, men of all races and all tongues find a common meeting place in contract bridge. My correspondence is peppered heavily with letters bearing the postmarks of many foreign countries—letters from India, from China, from Egypt, as well as all of Europe, and all bearing on this great intellectual recreation of civilized mankind. A recent mail brought me from Mr. Ivar Anderson, one of the noted bridge players of Stockholm, the story of an interestingly bid and played small slam.

Both sides were vulnerable. North dealer.

New York Market Closes in Rally After Bad Slump

NEW YORK, Oct. 1 (AP).—The stock market struggled through several fits of extreme depression today, but managed to close with a rally.

The late upturn was insufficient to cancel all of the losses, but it reduced them substantially. A few pivotal issues finished higher.

The average net decline in leading issues was 14 points, the smallest of the week. Activity increased rather substantially, sales totaling 3,990,640 shares.

At their worst, the so-called blue ribbon stocks looked badly dragged. American Telephone was thrown for an extreme loss of four points, which it cut to 1. The day's low was 126 5/8. United States Steel, after breaking under 70, the lowest in sixteen years, closed 1-8 up. General Electric flopped to 26 1/2, and General Motors to 22 1/2, but the former's net loss was nominal and the latter's 3-4. Consolidated Gas was steadily pressed most of the day, sagging to 64 5/8, from which level it made considerable recovery. American Can, Eastman, Westinghouse and a number of others returned net advances.

The trend, highly confused all day, reversed itself in the late trading and prices advanced as the session ended.

Foreign currencies are firming, today's rise being led by sterling, which closely approached \$4. The final rate on cables was \$3.92, or four cents higher.

The Canadian dollar moved its discount and bond maturities payable in American gold were met. Gold earmarkings increased \$24,200,000 and more than \$6,000,000 was withdrawn for export to France.

Buyers rallied to the support of United States Government obligations in sufficient numbers today to halt the decline that had carried several issues below par. Advances ranging up to nearly a point were registered in a large turnover, and provided the most encouraging development of the day's trading.

WHEAT PRICES SLIP LOWER

Interlisted Securities Slip to Lower Prices On Eastern Markets

Lack of Export Trading Pushes Prices Down at Winnipeg

WINNIPEG, Oct. 1 (CP).—In dull trading, with export trading a minus quantity, wheat prices edged lower today. The wheat market here today. At close of trading, losses of from 7-8 to 13-8 cents below yesterday's final figures were recorded.

October closed at 52 1/2, November at 53 1/4, and May at 57 1/4. There was no particular feature to the trading. The early opening gave promise of a quiet session. Later in the session, however, bearish reports made their appearance, which caused cash prices to reflect sympathy with the wheat market.
